

GREAT
PANTHER
SILVER LIMITED

PRIMARY SILVER PRODUCER

TSX: GPR | NYSE MKT: GPL | FWB: G3U

WWW.GREATPANTHER.COM

PRIMARY SILVER PRODUCER

SILVER

Primary Silver Producer
57% Ag, 33% Au, 10% Pb-Zn

PRODUCER

Two 100% owned mines in Mexico
Unhedged Ag & Au; No Royalties

STRENGTH

Strong balance sheet; no LTD
\$21.3 M cash, \$35.1 M working capital

UPSIDE

Developing a satellite operation
Analyzing acquisitions opportunities

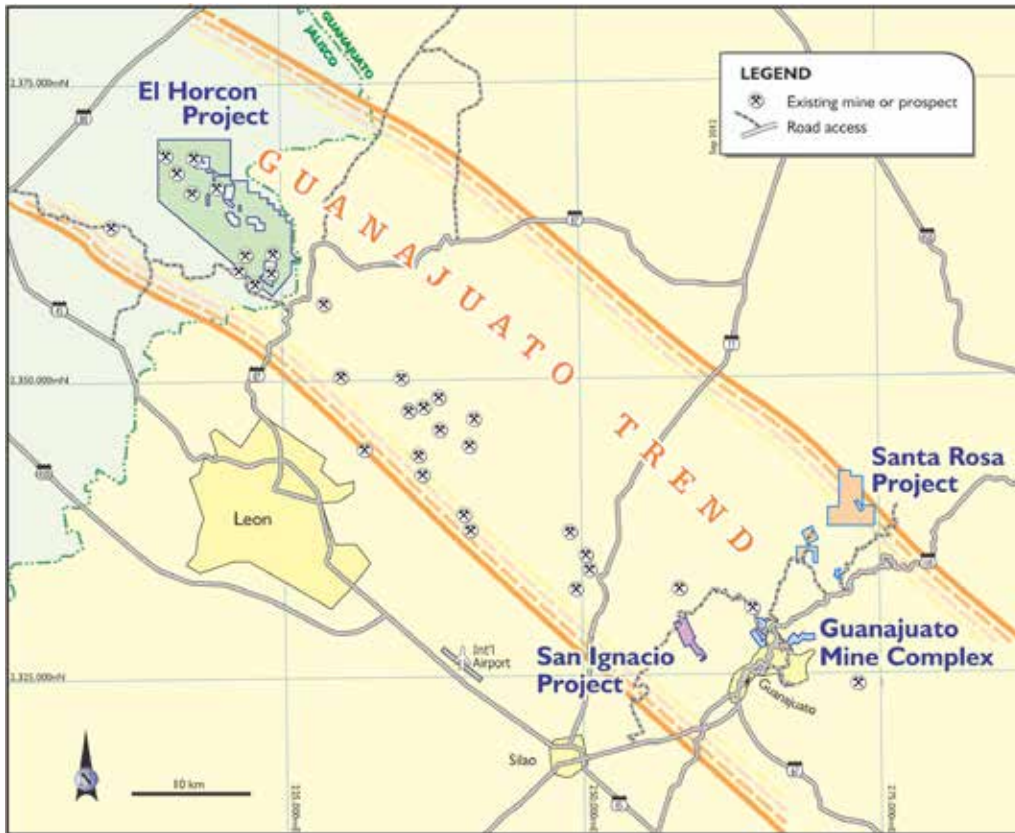

MEXICO

Top silver producing country in the world

Stable politics & economy

GUANAJUATO Ag-Au DISTRICT

One of Mexico's most historic mining districts with past production of >1 billion Ag oz over 400 years

Expanding, developing and exploring the Guanajuato Mine Complex

Underground development pending at the San Ignacio Project

Phase I drill program completed at El Horcon – resource estimate and PEA underway

GUANAJUATO Ag-Au MINE

Historic underground mine with two operating shafts & three ramps

Currently mining & developing to the SE of the Cata Shaft and at Guanajuatito in NW

Deep drilling successful in intersecting high grade Ag-Au mineralization

Strong recoveries and increased throughput at newly-refurbished plant

GUANAJUATO Ag-Au MINE

Accounts for 67% of total production

Q2 2013

Metal Production (Ag Eq Oz ¹)	466,925
Ag Production (Ag Oz)	236,454
Recoveries Ag/Au	87.2% / 91.5%
Average Grades	159g/t Ag 2.47g/t Au
Cash Cost/Ag Oz ²	\$17.26
Ore processed (tonnes)	52,917

1. Silver equivalent ounces for 2013 were established in November 2012 using prices of US\$28 per oz, US\$1,680 per oz (60:1 ratio), US\$0.85 per lb and US\$0.85 per lb for silver, gold, lead & zinc, respectively, and applied to the recovered metal content of the concentrates that were produced by the two operations. For consistency, these prices will be used for the balance of 2013.
2. "Cash cost per silver ounce" is a non-IFRS measure. It is calculated by taking the cost of sales, plus smelting and refining costs, minus by-product revenue, minus any custom milling (Topia), divided by silver payable ounces. Refer to the "Non-IFRS Measures" section of MD&A for a complete definition and reconciliation to the Company's financial statements.

SAN IGNACIO Ag-Au PROJECT

Current resource covers only 650 metre strike length out of 4 km potential

Step-out drilling has shown excellent silver-gold mineralization

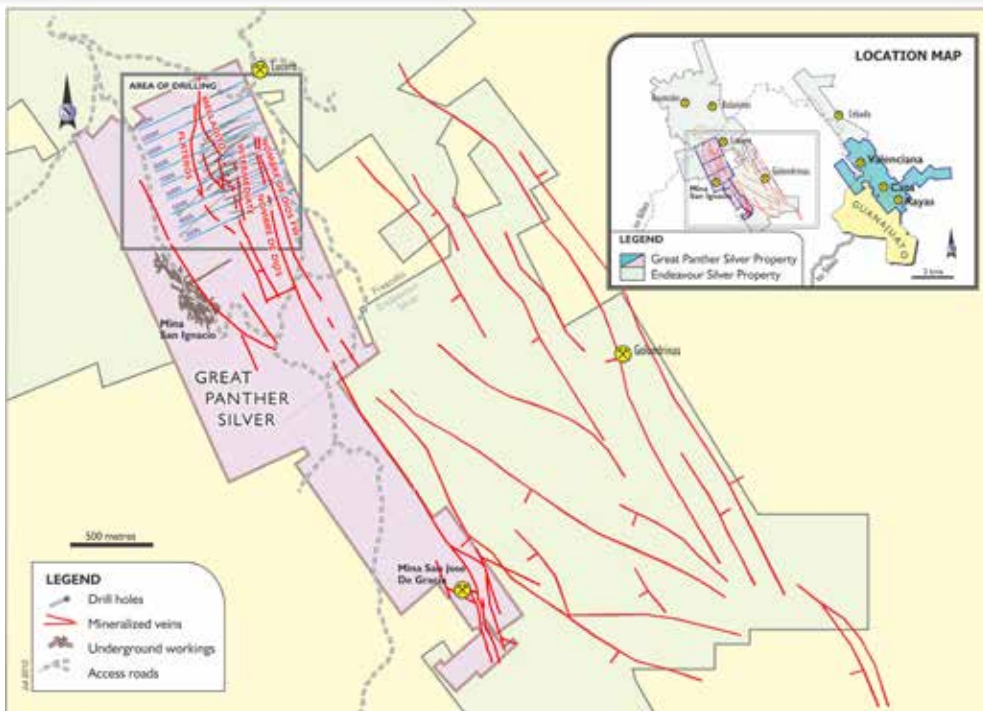

Mineralization starts 50-100 metres below surface so easy access by ramp

Development ore will be trucked to Cata Plant – no need to stockpile

Ability to monetize the project right away will help pay for its development

SAN IGNACIO Ag-Au PROJECT

Location	Guanajuato State
Ownership	100%; No Royalties
Past Production	617,455t @ 113g/t Ag & 1.01g/t Au
New Discovery	More than 29,700 metres drilled since 2010
Inferred Resources	6.9 million Ag Eq Oz in 826,000 tonnes @ 121g/t Ag & 2.28g/t Au
Permitting	Expected in Q3 2013

In-fill drilling to commence in Q3

Ramp development in Q4 (pending permitting)

Production anticipated in 2014

EL HORCON Ag-Au PROJECT

Property covers >7,900 hectares within Guanajuato Trend

Past producing (16th-18th century) underground mine

Multiple veins in old workings accessed by cross-cut

Surface drill program completed in Q2 2013 (2,156 metres in 24 holes)

Initial mineral resource delineation & PEA targeted for H2 2013

Trucking distance to GPR's Cata Processing Plant in Guanajuato

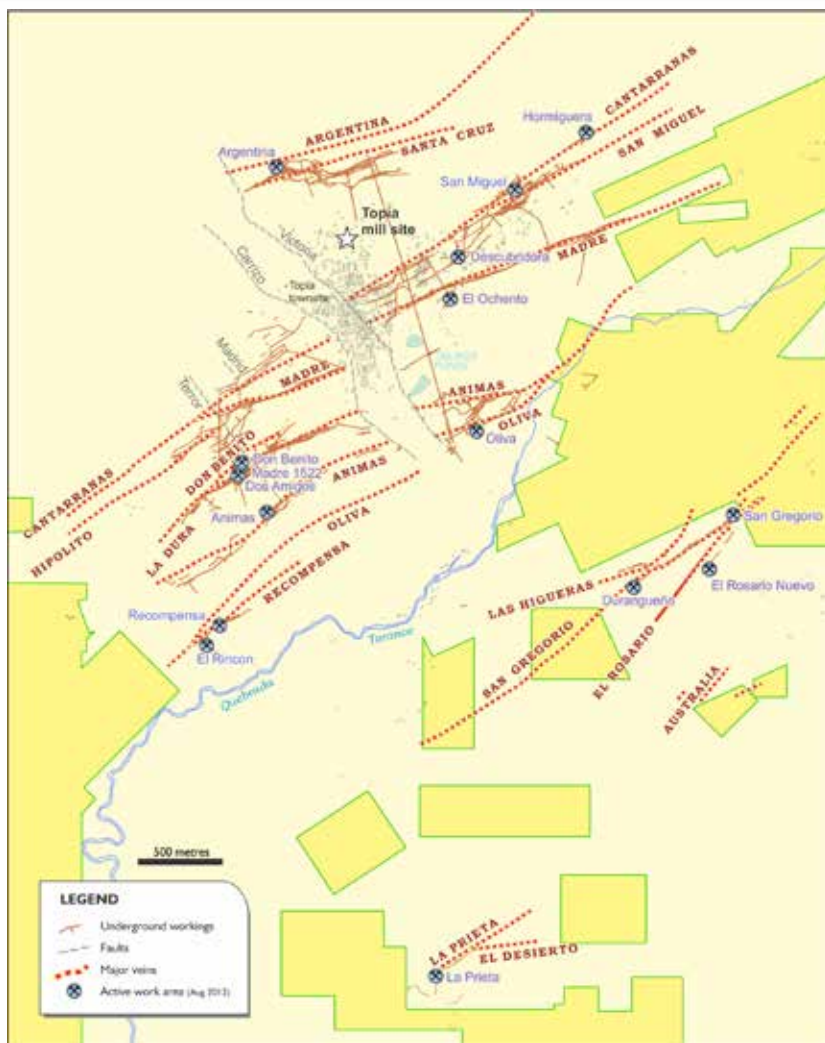

EL HORCON Ag-Au PROJECT

First phase drill program tested Diamantillo vein 50-75m below surface along ~650m strike length

Structural mapping, sampling, fluid inclusions, and alteration studies along 7km of multiple vein strike extent

TOPIA Ag-Pb-Zn-Au MINE

Property covers >6,500 hectares

High grade, narrow vein underground mining

Mining 12 different veins & trucking to central plant

Expanding production at Argentina, San Gregorio and El Rosario

Extending strike length of known veins with additional drilling

Accumulating additional claims in district

TOPIA Ag-Pb-Zn-Au MINE

Accounts for 33% of total production

Q2 2013	
Metal Production (Ag Eq Oz ¹)	213,287
Ag Production (Ag Oz)	160,276
Recoveries	
Ag/Au	90.6% / 57.0%
Pb/Zn	92.5% / 91.9%
Average Grades	376g/t Ag, 0.57g/t Au 1.79% Pb, 3.05% Zn
Cash Cost/Ag Oz ²	\$19.67
Ore processed (tonnes)	14,652

FINANCIAL SUMMARY

in 000s except amounts per share and per ounce	2013 Q2	2013 Q1	2012 Q4	2012 Q3	2012 Q2
Revenue	\$ 11,165	\$ 12,639	\$ 17,789	\$ 15,286	\$ 14,439
Net income (loss)	\$ (5,124)	\$ 1,276	\$ (1,285)	\$ 1,758	\$ 354
Adjusted EBITDA ¹	\$ (3,323)	\$ 521	\$ 3,800	\$ 4,961	\$ 3,691
Gross profit (loss) (Earnings from mining operations)	\$ (3,842)	\$ 313	\$ 3,319	\$ 5,791	\$ 3,771
Earnings (loss) per share – basic	\$ (0.04)	\$ 0.01	\$ (0.01)	\$ 0.01	\$ 0.00
Earnings (loss) per share – diluted	\$ (0.04)	\$ 0.01	\$ (0.01)	\$ 0.01	\$ 0.00
Total cash cost per silver ounce (USD) ²	\$ 18.14	\$ 18.60	\$ 14.58	\$ 13.16	\$ 11.42
Average realized silver price (USD) ³	\$ 21.58	\$ 29.71	\$ 31.94	\$ 31.92	\$ 28.06

1. "Adjusted EBITDA" is a non-IFRS measure. Refer to the "Non-IFRS Measures" section of the Company's MD&A for a complete definition and reconciliation to the Company's financial statements.
2. "Cash cost per silver ounce" is a non-IFRS measure. It is calculated by taking the cost of sales, plus smelting and refining costs, minus by-product revenue, minus any custom milling (Topia), divided by silver payable ounces. Refer to the "Non-IFRS Measures" section of MD&A for a complete definition and reconciliation to the Company's financial statements.
3. Average realized silver price is prior to treatment, refining and smelting charges.

COST REDUCTION INITIATIVES

Non-essential CAPEX has been eliminated or deferred

Development and exploration drilling have been reduced and prioritized with a focus on production

The number of mine contractors at Guanajuato has been reduced and some contracts have been renegotiated

Supply inventories and electricity consumption are being decreased and we have reduced our maintenance, sampling and assaying costs

Corporate communications, business development, exploration and administrative budgets have been reduced with concurrent layoffs

Salary deferral programs for senior management and the Board have been implemented

2013 OBJECTIVES

Meet or exceed production guidance of 2.4-2.5 million Ag eq oz at cash cost of \$15-16/Ag oz (net of by-product credits)

Continue to reduce operating costs & overheads

Continue to improve grade control & operating efficiencies

Obtain permit for San Ignacio & commence ramp development

Complete internal PEA for El Horcon

Great Panther is a primary silver producer

Strong leverage to silver price

Good liquidity on NYSE MKT and TSX

Strong working capital & no long term debt

Potential for production growth through satellite projects

Analyzing acquisition opportunities in Latin America

DISCLAIMER

This presentation contains forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995 and forward-looking information within the meaning of the Securities Act (Ontario) (together, "forward-looking statements"). Such forward-looking statements may include but are not limited to the Company's plans for production at its Guanajuato and Topia Mines in Mexico, exploring its other properties in Mexico, the overall economic potential of its properties, the availability of adequate financing and involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements expressed or implied by such forward-looking statements to be materially different. Such factors include, among others, risks and uncertainties relating to potential political risks involving the Company's operations in a foreign jurisdiction, uncertainty of production and cost estimates and the potential for unexpected costs and expenses, physical risks inherent in mining operations, currency fluctuations, fluctuations in the price of silver, gold and base metals, completion of economic evaluations, changes in project parameters as plans continue to be refined, the inability or failure to obtain adequate financing on a timely basis, and other risks and uncertainties, including those described in the Company's Annual Information Form for the year ended December 31, 2012 and Material Change Reports filed with the Canadian Securities Administrators available at www.sedar.com, and reports on Form 40-F and Form 6-K filed with the Securities and Exchange Commission and available at www.sec.gov.

Statements concerning mineral reserve and resource estimates may also be deemed to constitute forward-looking statements to the extent that they involve estimates of the mineralization that will be encountered if the property is developed. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "expects", "anticipates", "plans", "projects", "estimates", "assumes", "intends", "strategy", "goals", "objectives", "potential" or variations thereof, or stating that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved, or the negative of any of these terms and similar expressions) are not statements of historical fact and may be forward-looking statements.

Robert Brown, P. Eng. is the Qualified Person under NI 43-101 for the projects discussed in this presentation.

CAUTIONARY NOTE TO U.S. INVESTORS

The terms "Measured resource", "Indicated resource" and "Inferred resource" used in this document are Canadian mining terms as defined in National Instrument 43-101 Standards of Disclosure for Mineral Projects ("NI 43-101") and CIM Standards on Mineral Resources and Mineral Reserves. Mineral resources that are not mineral reserves have not been demonstrated to be economically and legally extractable. Mineral resource estimates do not account for mineability, selectivity, mining loss and dilution. It should not be assumed that all or any part of a resource will ever be converted to a reserve. The mineral resource estimates presented herein include Inferred mineral resources that are normally considered too speculative geologically to have economic considerations applied to them that would enable them to be categorized as mineral reserves. There is also no certainty that these Inferred resources will be converted to Measured and Indicated resource categories through further drilling, or into mineral reserves once economic considerations are applied.

We advise U.S. Investors that while the terms "Measured resource", "Indicated resource" and "Inferred resource" are recognized and required to be reported by Canadian regulations, the U.S. Securities and Exchange Commission ("SEC") does not recognize these terms and does not normally permit such terms to be used in reports and registration statements filed with the SEC. As such, information contained in this document concerning descriptions of mineralization and resources under Canadian standards may not be comparable to similar information made public by U.S. companies subject to the reporting and disclosure requirements of the SEC. Inferred resources have a great amount of uncertainty as to their existence and a great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of a Measured, Indicated or Inferred resource will ever be upgraded to a higher category. U.S. investors are cautioned not to assume that any part or all of an Inferred mineral resource exists, or is economically or legally mineable. U.S. investors are also cautioned not to assume that any part or all of the mineral deposits in the Measured resource or Indicated resource categories will ever be converted into reserves.

SOCIAL PRINCIPLES

We are committed to ensuring our employees and contractors return home safely every day.

We are committed to fair and equitable employment conditions for our employees.

We are committed to enhancing and benefiting the communities in which we live and operate.

We are committed to minimizing and restoring any impact on our environment.

We are committed to strong ethics and we abide by all rules and regulations that apply to our business.

Awarded distinction as a “Socially Responsible Company” by CEMEFI, Centro Mexicano para la Filantropía, for a third consecutive year in February, 2013.

DRILLING SUMMARY

	2010	2011	2012	Planned for 2013
Guanajuato	16,695 m	26,546 m	29,254 m	21,500 m
Topia	8,815 m	4,526 m	8,059 m	2,400 m
San Ignacio	1,762 m	17,313 m	9,310 m	2,500 m
Santa Rosa	-	-	1,653 m	-
El Horcon	-	-	-	2,156 m
Total	27,272 m	48,385 m	48,276 m	28,556 m

2013 focus on
quality vs. quantity ounces

Striking balance between
cash flow and exploration funding

Track record of making new discoveries

RESOURCES

Measured	Tonnes	Ag (g/t)	Au (g/t)	Pb (%)	Zn (%)	Ag (oz)	Au (oz)	Ag Eq Oz
