In particular, third quarter sales of our organic trace mineral additives increased 81 percent over the same period last year. We have significantly enhanced our domestic sales and marketing initiatives, and believe we are extremely well positioned heading into 2013. We achieved record operating income and cash flow, and we are pleased to report we had over \$11 million of cash on hand, and shareholder equity of \$16.5 million, or \$1.24 per share, at the end of the third quarter. Looking ahead, we are in the process of adding a new state-of-the-art production facility, which we expect to come online in mid-2013. This new facility will help support our anticipated growth, both domestic and international."
