About Homeowners Choice, Inc.

Homeowners Choice, Inc., doing business as HCI Group, Inc., is a holding company owning subsidiaries engaged in diverse business activities, including property and casualty insurance, information technology, real estate and reinsurance. The company's largest subsidiary, Homeowners Choice Property & Casualty Insurance Company, Inc., is a leading provider of property and casualty insurance in the state of Florida.

The company's common shares trade on the New York Stock Exchange under the ticker symbol "HCI" and are included in the Russell 2000 Index. Its 8% Senior Notes trade on the New York Stock Exchange under the ticker symbol "HCJ." Its 7% Series A, cumulative redeemable preferred shares trade on the NASDAQ Capital Market under the ticker symbol "HCIIP." For more information about HCI Group, visit www.hcigroup.com.

Dear Fellow Shareholders

Paresh Patel
Chairman & CEO

2012 was an outstanding year for Homeowners Choice, marking our sixth consecutive year of profitability.

The year was highlighted by 79% growth in net premiums earned, driven by the successful integration of policies assumed from

HomeWise in November 2011 and Citizens in November 2012.

As a result of these selective policy assumptions, we grew our policy count by 25%, which put us on track to generate nearly \$340 million of annualized gross premiums in 2013.

Other financial highlights for 2012 included raising \$21.6 million in an offering of common shares, and more than one million preferred shares were converted into common shares. At year-end, only 241,182 preferred shares remained outstanding.

We believe the successful completion of this equity offering and the preferred stock conversions, as well as our recent \$40 million debt offering, demonstrate investor confidence in our business model and their recognition of the strength of our balance sheet and prudent cash flow management.

Our balance sheet was further strengthened with the exercise of more than 2.7 million warrants. With \$230 million of cash at the end of 2012, we possess the financial strength to take advantage of accretive growth opportunities as we did with the HomeWise acquisition.

2012 was the third year we paid dividends to our common shareholders. Our strong financial results and capital position allowed us to pay dividends

per share of 87.5 cents in 2012, up 67% from the 52.5 cents per share paid in 2011.

Major operational accomplishments in 2012 included the transfer of our common stock listing from the NASDAQ Global Select Market to the New York Stock Exchange. We also enhanced our real estate investment portfolio with the acquisition of waterfront property located in Treasure Island, Florida. We appointed Scott Wallace, the former Citizen's chief executive officer, as president of our insurance division, and we added numerous skilled employees throughout the year to administer our policy growth.

These new hires have helped us to maintain an unsurpassed level of customer service. In fact, we managed approximately 800 claims from Tropical Storm Debby and Hurricane Isaac, helping our policyholders recover their losses and restore their homes.

Can we duplicate our past performance? Future success depends in large part on our ability to find and exploit strategic opportunities. We are in a strong financial and operational position, and I am confident opportunities will continue to arise.

We just have to be poised, but patient.

We thank all of our shareholders and employees for their continued support, and we look forward to another successful year ahead. We hope to see you on May 22, 2013 at our annual meeting.

Sincerely,

Paresh Patel
Chairman of the Board
Chief Executive Officer

PART I

ITEM 1 – Business

General

Homeowners Choice, Inc. (“HCI”) is a holding company owning subsidiaries primarily engaged in the property and casualty insurance business. Homeowners Choice, Inc. was incorporated in Florida in 2006. References to “we,” “our,” “us,” “the Company,” or “HCI” in this Form 10-K generally refer to Homeowners Choice, Inc. and its subsidiaries. Our principal executive offices are located at 5300 West Cypress Street, Suite 100, Tampa, Florida 33607, and our telephone number is (888) 210-5235.

Our principal operating subsidiary, Homeowners Choice Property & Casualty Insurance Company, Inc. (“HCPCI”) was incorporated and began operations in 2007. Through HCPCI, we currently provide property and casualty homeowners’ insurance, condominium-owners’ insurance, and tenants’ insurance to individuals owning property in Florida. HCPCI’s operations are supported by the following HCI subsidiaries:

- Homeowners Choice Managers, Inc. – acts as managing general agent and provides marketing, underwriting, claims settlement, accounting and financial services to HCPCI;
- Southern Administration, Inc. – provides policy administration services to HCPCI; and
- Claddaugh Casualty Insurance Company, Ltd. – participates in the reinsurance program to HCPCI.

In addition, while not material to our consolidated financial statements, HCI has various subsidiaries primarily engaged in the businesses of owning and leasing real property, operating marina facilities and one restaurant and developing software.

Financial Highlights

We have one reportable segment for financial reporting purposes. We currently operate our business as a single segment based on the manner in which we review and evaluate our business and financial performance. The following table summarizes our financial performance during the years ended December 31, 2012, 2011 and 2010:

(Dollars in millions except per share amounts)			
For the year ended December 31:	2012	2011	2010
Net premium earned	\$157.7	88.1	62.4
Total revenue	\$163.1	93.8	68.6
Losses and loss adjustment expenses	\$ 66.3	48.2	37.7
Income before income taxes	\$ 49.6	16.4	8.6
Net income	\$ 30.2	10.0	5.4
Income available to common stockholders	\$ 29.8	9.1	5.4
Earnings per share of common stock:			
Basic	\$ 3.45	\$ 1.49	\$ 0.88
Diluted	\$ 3.02	\$ 1.34	\$ 0.81
Dividends per common share	\$ 0.88	\$ 0.53	\$ 0.30
Net cash provided by operating activities	\$106.3	56.0	16.1
Cash dividends paid on common stock	\$ 8.1	3.2	1.9
At December 31:			
Total investments	\$ 60.9	58.8	43.5
Cash and cash equivalents	\$230.2	100.4	54.8
Total assets	\$338.3	214.8	140.9
Total stockholders’ equity	\$121.3	63.8	46.6
Common shares outstanding (in millions)	10.9	6.2	6.2

Property and Casualty Insurance Business

HCPCI began operations in July of 2007 by participating in a “take-out program” through which we assumed insurance policies held by Citizens Property Insurance Corporation (“Citizens”), a Florida state-supported insurer. The take-out program is a legislatively mandated program designed to reduce the State’s risk exposure by encouraging private companies to assume policies from Citizens. Policies were assumed in nine separate assumption transactions which took place from July 2007 through November 2012. In addition, we completed an assumption transaction with HomeWise Insurance Company (“HomeWise”) in November 2011 through which we acquired the Florida policies of HomeWise. Substantially all of our premium revenue since inception has come from the policies acquired in these assumption transactions and subsequent renewals. Through the Citizens and HomeWise assumptions, we have over time been able to increase our geographic diversification within the state of Florida.

Citizens requires us to offer renewals on the policies we acquire in the take-out program for a period of three years subsequent to the initial expiration of the assumed policies. The policyholders have the option to renew with us or they may ask their agent to place their coverage with another insurance company. With respect to the assumptions through December 31, 2009, policyholders could also elect to return to Citizens, or opt out, prior to the policy renewal date. With respect to our December 2010 and November 2012 assumptions, the opt-out provision was limited to the thirty day period following the assumption date. We strive to retain these policies by offering competitive rates to our policyholders. We intend to selectively pursue additional assumption transactions with Citizens in the future.

We face various challenges to implementing our operating and growth strategies. Since we write policies that cover Florida homeowners, condominium owners, and tenants, we cover losses that may arise from, among other things, catastrophes, which could have a significant effect on our business, results of operations, and financial condition. To mitigate our risk of such catastrophic losses, we cede a portion of our exposure to reinsurers under contracts called catastrophe excess of loss reinsurance treaties. Even without catastrophic events, we may incur losses and loss adjustment expenses that deviate substantially from our estimates and that may exceed our reserves, in which case our net income and capital would decrease. Our operating and growth strategies may also be impacted by regulation of our business by the State of Florida, which must approve our policy forms and premium rates as well as monitor HCPCI’s ability to meet all requirements for regulatory compliance. Additionally, we may compete with large, well-established insurance companies, possessing greater financial resources, larger agency networks, and greater name recognition. See Item 1A, “Risk Factors,” below.

Competition

We operate in highly competitive markets where we face competition from national, regional and residual market insurance companies. We believe that we have approximately 20 material competitors writing homeowners’ property and casualty insurance in the state of Florida. Since beginning business in 2007, we have grown our business to become the eighth largest provider of homeowners’ property and casualty insurance in the state of Florida based on approximately \$215 million of annualized gross premiums as of June 30, 2012, derived from 110,000 policies in force, according to data from the Florida Office of Insurance Regulation (“FLOIR”).

Many of our competitors have larger financial capacities, greater resource availability, and more diversification in terms of insurance coverage. Our competitors include companies which market their products through agents, as well as companies which sell insurance directly to their customers. Large national insurers may have certain competitive advantages such as increased name recognition, increased loyalty of their customer base, and reduced policy acquisition costs. We may also face competition from new or temporary entrants in our niche markets. In some cases, such entrants may, because of inexperience, desire for new business or other reasons, price their insurance below ours. Although our pricing is inevitably influenced to some degree by that of our competitors, we believe that it is generally not in our best interest to compete solely on price.

Our competitive strategies focus on the following key areas:

- Exceptional service – We are committed to maintaining superior service to our policyholders and agents.
- Disciplined underwriting – We analyze exposures and utilize available underwriting data to ensure policies meet our selective criteria.
- Effective and efficient use of technology – We strive to add or improve technology that can effectively and efficiently enhance service to our policyholders and agents.
- New product offerings – We may cross-sell additional insurance products to our existing policyholders in order to broaden our lines of business and product mix.
- Geographical expansion – We plan to seek opportunities to expand our business within the state of Florida and perhaps into other states to increase overall geographic diversification.

Seasonality of Our Business

Our insurance business is seasonal as hurricanes and tropical storms typically occur during the period from June 1 through November 30 each year. With our reinsurance treaty year effective on June 1 each year, any variation in the cost of our reinsurance, whether due to changes in reinsurance rates or a change in the total insured value of our policy base, will occur and be reflected in our financial results beginning June 1 each year.

Government Regulation

We are subject to the laws and regulations in Florida, and the regulations of any other states in which we may seek to conduct business in the future. The regulations cover all aspects of our business and are generally designed to protect the interests of insurance policyholders opposed to the interests of shareholders. Such regulations relate to a wide variety of financial and non-financial matters including —

- authorized lines of business;
- capital and surplus requirements;
- approval of allowable rates and forms;
- approval of reinsurance contracts;
- investment parameters;
- underwriting limitations;
- transactions with affiliates;
- dividend limitations;
- changes in control; and
- market conduct.

Our failure to comply with certain provisions of applicable insurance laws and regulations could have a material adverse effect on our business, results of operations or financial condition.

Regulatory Uncertainty

Certain states including Florida have adopted laws or are considering proposed legislation which, among other things, limit the ability of insurance companies to effect rate increases or to cancel, reduce or non-renew insurance coverage with respect to existing policies. The Florida legislature continuously considers bills affecting

the residential property insurance market in the state. Current law penalizes insurers for noncompliance with the insurance code, establishes a private cause of action relating to claims payment practices, extends the notice period applicable to non-renewals of certain residential policies, prevents non-renewals and cancellation except for material misrepresentation and non-payment of premium and establishes procedures governing rate filings. Any changes in such laws and regulations could materially and adversely affect our operations or our ability to expand.

State Licensure and Approval

Most states, including Florida, require licensure and regulatory approval prior to the marketing of new insurance products. Typically, licensure review is comprehensive and includes a review of a company's business plan, solvency, reinsurance, character of its officers and directors, rates, forms and other financial and non-financial aspects of a company. The regulatory authorities may not allow entry into a new market by not granting a license or by withholding approval. In addition, regulatory authorities may preclude or delay our entry into markets by disapproving or withholding approval of our product filings.

Statutory Reporting and Examination

All insurance companies must file quarterly and annual statements with certain regulatory agencies and are subject to regular and special examinations by those agencies. In accordance with the National Association of Insurance Commissioners, the FLOIR intends to comply with recent initiatives recommending that all insurance companies under the same insurance holding company registration statement be subjected to concurrent triennial examinations. Our subsidiary, HCPCI, is subject to FLOIR examinations.

Liability for Losses and Loss Adjustment Expenses

Our liability for losses and loss adjustment expenses represents estimates of the total cost of (i) claims that have been incurred, but not yet paid, (ii) claims that have been "incurred but not yet reported" ("IBNR"), and (iii) loss adjustment expenses ("LAE") which are intended to cover the ultimate cost of settling claims, including investigation and defense of lawsuits resulting from such claims. We base our estimates on various assumptions and actuarial data we believe to be reasonable under the circumstances. The process of estimating the liability is inherently judgmental and is influenced by many variables such as past loss experience, current claim trends and the prevailing social, economic and legal environments.

Significant time can elapse between the occurrence of an insured loss, the reporting of the loss to us and our payment of that loss. Our liability for losses and LAE, which represents the best estimate at a given point in time based on facts, circumstances and historical trends then known, may necessarily be adjusted to reflect additional facts that become available during the loss settlement period.

For a discussion and summary of the activity in the liability for losses and LAE for the years ended December 31, 2012, 2011 and 2010, see Note 8 – "Losses and Loss Adjustment Expenses" to our consolidated financial statements under Item 8 of this Annual Report on Form 10-K.

Loss Development

Our losses and LAE represent estimated costs ultimately required to settle all claims for a given period. The following table illustrates development of the estimated liability for losses and LAE for the years 2007 (inception) through 2012 (dollars in thousands):

Schedule of Loss Development

	Years Ended December 31,					
	2007	2008	2009	2010	2011	2012
Originally estimated losses and LAE ¹	\$ 1,688	14,763	19,178	22,146	27,424	41,168
Re-estimated losses and LAE ² as of:						
1 year later	1,412	10,879	18,399	26,776	27,309	
2 years later	1,236	10,991	19,866	26,003		
3 years later	1,268	11,661	19,361			
4 years later	1,327	11,528				
5 years later	1,330					
Cumulative redundancy (deficiency) ³	358	3,235	(183)	(3,857)	115	
Cumulative amount of liability paid as of:						
1 year later	760	7,725	10,481	16,833	15,652	
2 years later	1,108	9,229	15,336	20,708		
3 years later	1,108	10,339	17,065			
4 years later	1,327	10,947				
5 years later	1,330					
Gross premiums earned	\$29,360	61,925	110,011	119,757	143,606	233,607

- 1 Represents management's original best estimated liability of (i) unpaid claims, (ii) IBNR, and (iii) loss adjustment expenses.
- 2 Represents the re-estimated liabilities in later years of unpaid claims, IBNR and loss adjustment expenses for each of the respective years.
- 3 Represents the difference between the latest re-estimate and the original estimate. A redundancy means the original estimate is higher than the current estimate whereas a deficiency means that the original estimate is lower than the current estimate.

Other Operations

In April 2011, we acquired real property that included a marina operation in Tierra Verde, Florida, and in April 2012, we acquired property in Treasure Island, Florida that includes a marina operation and restaurant. In November 2011, we acquired a small software development company (Unthink Technologies Private Ltd.) located in India. In June 2010, we purchased real estate including an office building in Tampa, Florida that we use for our headquarters and in which we currently lease approximately 46,000 square feet to non-affiliates.

We do not believe that any of these non-insurance operations are material, either individually or in the aggregate, to our consolidated financial statements or consolidated results of operations.

Environmental Matters

Our subsidiaries, which own waterfront property including marina facilities, are subject to regulation under various federal, state, and local laws concerning the environment, including laws addressing the discharge of pollutants into the air and water and the management and disposal of hazardous substances and wastes and the cleanup of contaminated sites. For a discussion of the liability assumed in connection with our acquisition of such marina facilities and the ongoing remedial action, see Note 13 – "Commitments and Contingencies" to our consolidated financial statements under Item 8 of this Annual Report on Form 10-K.

Employees

As of February 20, 2013, we employed approximately 150 full-time individuals working primarily from our headquarters in Tampa, Florida and approximately 60 employees located in Noida, India. As of such date, our real estate operations have approximately 80 employees leased through professional employer organizations.

Available Information

We file annual, quarterly, and current reports with the Securities and Exchange Commission (“SEC”). These filings are accessible free of charge on our website, www.hcigroup.com (click “SEC filings” at the “Investors” tab), as soon as reasonably practicable after they have been electronically filed with or furnished to the SEC. The SEC maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers, which you can access via the SEC’s website at www.sec.gov. In addition, these filings are accessible at the SEC’s Public Reference Room, which is located at 100 F Street, NE, Washington, DC 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330.

ITEM 1A – Risk Factors

Our business is subject to a number of risks, including those described below, which could have a material effect on our results of operations, financial condition or liquidity and, additionally, could cause our operating results to vary significantly from period to period.

We currently conduct our insurance business in Florida only. Thus, any single catastrophic event or other condition affecting losses in Florida could adversely affect our financial condition and results of operations.

A single catastrophic event, destructive weather pattern, general economic trend, regulatory development or other condition specifically affecting the state of Florida could have a disproportionately adverse impact on our business, financial condition, and results of operations. While we actively manage our exposure to catastrophic events through our underwriting process and the purchase of reinsurance, the fact that our business is concentrated in the state of Florida subjects it to increased exposure to certain catastrophic events and destructive weather patterns such as hurricanes, tropical storms, and tornados. Changes in the prevailing regulatory, legal, economic, political, demographic and competitive environment, and other conditions in the state of Florida could also make it less attractive for us to do business in Florida and would have a more pronounced effect on our business than it would on other insurance companies that are geographically diversified. Since our business is concentrated in this manner, the occurrence of one or more catastrophic events or other conditions affecting losses in the state of Florida could have an adverse effect on our business, financial condition, and results of operations.

Our results may fluctuate based on many factors including cyclical changes in the insurance industry.

The insurance business historically has been a cyclical industry characterized by periods of intense price competition due to excessive underwriting capacity, as well as periods when shortages of capacity permitted an increase in pricing and, thus, more favorable underwriting profits. As premium levels increase, there may be new entrants to the market, which could then lead to a decrease in premium levels. Any of these factors could lead to a significant reduction in premium rates, less favorable policy terms and fewer opportunities to underwrite insurance risks, which could have a material adverse effect on our results of operations and cash flows. In addition to these considerations, changes in the frequency and severity of losses suffered by insureds and insurers may affect the cycles of the insurance business significantly.

We cannot predict whether market conditions will improve, remain constant or deteriorate. Negative market conditions may impair our ability to write insurance at rates that we consider appropriate relative to the risk assumed. If we cannot write insurance at appropriate rates, our business would be materially and adversely affected.

Our business could be harmed if we lose the services of our key personnel.

Our operations are highly dependent on the efforts of our senior executive officers, particularly our chief executive officer, Paresh Patel, as well as our chief financial officer, Richard Allen, and Scott Wallace, HCPCI's president. The loss of their leadership, industry knowledge and experience could negatively impact our operations. With the exception of Mr. Patel, Mr. Allen and Mr. Wallace, we have no employment agreements with any of our personnel nor do we offer any guarantee of any employee's ongoing service. We maintain key-man life insurance on Mr. Patel although such policy may be insufficient to cover us for the damage resulting to our company from the loss of Mr. Patel's services.

We do not have significant redundancy in our operations.

We conduct our business primarily from offices located in Tampa, Florida where tropical storms could damage our facilities or interrupt our power supply. The loss or significant impairment of functionality in these

facilities for any reason could have a material, adverse effect on our business as we do not have significant redundancies to replace our facilities if functionality is impaired. We contract with a third party vendor to maintain complete daily backups of our systems, which are stored at the vendor's facility in Atlanta, Georgia. Access to these databases is strictly controlled and limited to authorized personnel. While we have implemented daily off-site backups, we have not fully tested our plan to recover data in the event of a disaster. Additionally, effective February 28, 2013, we have purchased an office building in Ocala, Florida to be used by us primarily in the event a catastrophic event impacts our home office and support operations.

Our information technology systems may fail or suffer a loss of security which could adversely affect our business.

Our insurance business is highly dependent upon the successful and uninterrupted functioning of our computer and data processing systems. We rely on these systems to perform actuarial and other modeling functions necessary for writing business, as well as to handle our policy administration process (i.e., the printing and mailing of our policies, endorsements, renewal notices, etc.). The successful operation of our systems depends on a continuous supply of electricity. The failure of these systems or disruption in the supply of electricity could interrupt our operations and result in a material adverse effect on our business.

The development and expansion of our insurance business is dependent upon the successful development and implementation of advanced computer and data processing systems. Because HCPCI intends to expand its business by writing additional voluntary policies, we are enhancing our information technology systems to handle and process an increased volume of voluntary policies. The failure of these systems to function as planned could slow our growth and adversely affect our future business volume and results of operations.

Because we believe that our independent insurance agents will play a key role in our efforts to increase the number of voluntary policies written by HCPCI, we are also in the process of developing business platforms and distribution initiatives that will allow us to provide information to, and exchange information with, our agents in an effective and efficient manner. These systems are intended to provide us with current information regarding the insurance markets in which we operate, therefore permitting us to adjust our selective underwriting criteria as needed to rapidly respond to market changes. In the event that the development of these systems does not proceed as planned, the expansion of our business could be delayed. Internet disruptions or system failures once these systems are fully operational could also adversely affect our future business volume and results of operations.

In addition, a security breach of our computer systems could damage our reputation or result in liability. We retain confidential business and policyholder information in our computer systems. We may be required to spend significant capital and other resources to protect against security breaches or to alleviate problems caused by such breaches. It is critical that these facilities and infrastructure remain secure. Despite the implementation of security measures, this infrastructure may be vulnerable to physical break-ins, computer viruses, programming errors, attacks by third parties or similar disruptive problems. In addition, we could be subject to liability if hackers were able to penetrate our network security or otherwise misappropriate confidential information.

Increased competition, competitive pressures, industry developments, and market conditions could affect the growth of our business and adversely impact our financial results.

The property and casualty insurance industry in Florida is cyclical and highly competitive. We compete not only with other stock companies but also with mutual companies, other underwriting organizations and alternative risk sharing mechanisms. Our principal lines of business are written by numerous other insurance companies. Competition for any one account may come from very large, well-established national companies, smaller regional companies, other specialty insurers in our field, and other companies that write insurance only in Florida. Many of these competitors have greater financial resources, larger agency networks and greater name recognition than our company. We compete for business not only on the basis of price, but also on the basis of

financial strength, types of coverage offered, availability of coverage desired by customers, commission structure, and quality of service. We may have difficulty continuing to compete successfully on any of these bases in the future. Competitive pressures coupled with market conditions may affect our rate of premium growth and financial results.

Our ability to compete in the property and casualty insurance industry and our ability to expand our business may be negatively affected by the fact that we are a new company. We do not have an A.M. Best rating and do not expect to obtain such a rating in the near future. HCPCI has obtained a Demotech rating of “A Exceptional,” which is accepted by major mortgage companies operating in the state of Florida and many other states. However, some mortgage companies may require homeowners to obtain property insurance from an insurance company with a certain minimum A.M. Best rating, and such a requirement could prevent us from expanding our business, which may in turn limit our ability to compete with large, national insurance companies and certain regional insurance companies. In addition, a downgrade or loss of our Demotech rating could result in a substantial loss of business in the event insureds move their business to insurers with a sufficient financial strength rating.

There are inherent limitations and risks related to our projections and our estimates of claims and loss reserves. If our actual losses exceed our loss reserves, our financial results, our ability to expand our business, and our ability to compete in the property and casualty insurance industry may be negatively affected. In addition, industry developments could further increase competition in our industry. These developments could include —

- an influx of new capital in the marketplace as existing companies attempt to expand their businesses and new companies attempt to enter the insurance business as a result of better pricing and/or terms;
- programs in which federally or state-sponsored entities provide property insurance in catastrophe-prone areas or other alternative markets;
- changes in Florida’s regulatory climate; and
- the passage of federal proposals for an optional federal charter that would allow some competing insurers to operate under regulations different or less stringent than those applicable to HCPCI.

These developments and others could make the property and casualty insurance marketplace more competitive by increasing the supply of insurance available.

If competition limits our ability to write new business at adequate rates, our future results of operations would be adversely affected.

If our actual losses from claims exceed our loss reserves, our financial results would be adversely affected.

Our objective is to establish loss reserves that are adequate and represent management’s best estimate; that is, the amounts initially recorded as reserves should approximate the ultimate cost to investigate and settle a specific claim. However, the process of establishing adequate reserves is complex and inherently uncertain, and the ultimate cost of a claim may vary materially from the amounts reserved. We regularly monitor and evaluate loss and loss adjustment expense reserve development to determine reserve adequacy.

Due to these uncertainties, the ultimate losses may vary materially from current loss reserves which could have a material adverse effect on our future financial condition, results of operations and cash flows.

The failure of our claims department to pay claims accurately could adversely affect our insurance business, financial results and capital requirements.

We rely on our claims department to accurately evaluate and pay the claims made under our policies. Many factors could affect the ability of our claims department to accurately evaluate and pay claims, including the

accuracy of our external independent adjusters as they make their assessments and submit their estimates of damages; the training, background, and experience of our claims representatives; the ability of our claims department to ensure consistent claims handling given the input by our external independent adjusters; the ability of our claims department to translate the information provided by our external independent adjusters into acceptable claims settlements; and the ability of our claims department to maintain and update its claims handling procedures and systems as they evolve over time based on claims and geographical trends in claims reporting. Any failure to pay claims accurately could lead to material litigation, undermine our reputation in the marketplace, impair our corporate image and negatively affect our financial results.

The effects of emerging claim and coverage issues on our business are uncertain.

As industry practices and legal, judicial, social and other environmental conditions change, unexpected and unintended issues related to claims and coverage may emerge. These issues may adversely affect our business by either extending coverage beyond our underwriting intent or by increasing the number or size of claims. In some instances, these changes may not become apparent until sometime after we have issued insurance contracts that are affected by the changes. As a result, the full extent of liability under our insurance contracts may not be known for many years after a contract is issued and renewed, and our financial position and results of operations may be adversely affected.

If we are unable to expand our business because our capital must be used to pay greater than anticipated claims, our financial results may suffer.

Our future growth will depend on our ability to expand the number of insurance policies we write in Florida, to expand the kinds of insurance products we offer, and to expand the geographic markets in which we do business, all balanced by the insurance risks we choose to assume and cede. Our existing sources of funds include possible sales of our securities and our income from operations and investments. Unexpected catastrophic events in our market areas, such as the hurricanes experienced in Florida, may result in greater claims losses than anticipated, which could require us to limit or halt our growth while we redeploy our capital to pay these unanticipated claims unless we are able to raise additional capital.

We may require additional capital in the future which may not be available or may only be available on unfavorable terms.

Our future capital requirements depend on many factors, including our ability to write new business successfully and to establish premium rates and reserves at levels sufficient to cover losses. To the extent that our present capital is insufficient to meet future operating requirements or to cover losses, we may need to raise additional funds through financings or curtail our growth. Based on our current operating plan, we believe current capital together with our anticipated retained income will support our operations. However, we cannot provide any assurance in that regard, since many factors will affect our capital needs and their amount and timing, including our growth and profitability, and the availability of reinsurance, as well as possible acquisition opportunities, market disruptions and other unforeseeable developments. If we require additional capital, it is possible that equity or debt financing may not be available at all or may be available only on terms that are not favorable to us. In the case of equity financings, dilution to our shareholders could result, and in any case such securities may have rights, preferences and privileges that are senior to those of existing shareholders. If we cannot obtain adequate capital on favorable terms or at all, our business, financial condition or results of operations could be materially adversely affected.

Our financial results may be negatively affected by the fact that a portion of our income is generated by the investment of our available cash.

A portion of our income is, and likely will continue to be, generated by the investment of our capital, premiums and loss reserves. The amount of income so generated is a function of our investment policy, available

investment opportunities, and the amount of available cash invested. As we continue to grow and to deploy our capital, the proportion of income invested will decrease, and investment income will make up a smaller percentage of our net revenue. At December 31, 2012, approximately 16.3% of our available cash was invested in fixed-maturity and equity securities with the balance in cash and cash equivalents. We may alter our investment policy to accept higher levels of risk with the expectation of higher returns. Fluctuating interest rates and other economic factors make it impossible to estimate accurately the amount of investment income that will be realized. In fact, we may realize losses on our investments.

We have exposure to unpredictable catastrophes, which can materially and adversely affect our financial results.

We write insurance policies that cover homeowners, condominium owners, and tenants for losses that result from, among other things, catastrophes. We are therefore subject to losses, including claims under policies we have written, arising out of catastrophes that may have a significant effect on our business, results of operations, and financial condition. A significant catastrophe could also have an adverse effect on our reinsurers. Catastrophes can be caused by various events, including hurricanes, tropical storms, tornadoes, windstorms, earthquakes, hailstorms, explosions, power outages, fires and by man-made events, such as terrorist attacks. The incidence and severity of catastrophes are inherently unpredictable. The extent of losses from a catastrophe is a function of both the total amount of insured exposure in the area affected by the event and the severity of the event. Our policyholders are currently concentrated in Florida, which is especially subject to adverse weather conditions such as hurricanes and tropical storms. Therefore, although we attempt to manage our exposure to catastrophes through our underwriting process and the purchase of reinsurance protection, an especially severe catastrophe or series of catastrophes could exceed our reinsurance protection and may have a material adverse impact on our results of operations and financial condition.

Reinsurance coverage may not be available to us in the future at commercially reasonable rates or at all and we risk non-collectability of reinsurance amounts due us from reinsurers with which we have contracted.

Reinsurance is a method of transferring part of an insurance company's liability and premium under an insurance policy to another insurance company. We use reinsurance arrangements to limit and manage the amount of risk we retain, to stabilize our underwriting results and to increase our underwriting capacity. The cost of such reinsurance is subject to prevailing market conditions beyond our control such as the amount of capital in the reinsurance market and natural and man-made catastrophes. We cannot be assured that reinsurance will remain continuously available to us in the amounts we consider sufficient and at prices acceptable to us. As a result, we may determine to increase the amount of risk we retain or look for other alternatives to reinsurance, which could in turn have a material adverse effect on our financial position, results of operations and cash flows.

With respect to the reinsurance treaties we currently have in effect, our ability to recover amounts due from reinsurers is subject to the reinsurance company's ability and willingness to pay and to meet their obligations to us. We attempt to select financially strong reinsurers with an A.M. Best rating of "A-" or better or we require the reinsurer to fully collateralize its exposure. While we then monitor from time to time their financial condition, we rely principally on A.M. Best, our broker, and other rating agencies in determining their ability to meet their obligations to us. Any failure on the part of any one reinsurance company to meet its obligations to us could have a material adverse effect on our financial condition or results of operations.

Industry trends, such as increased litigation against the insurance industry and individual insurers, the willingness of courts to expand covered causes of loss, rising jury awards, and the escalation of loss severity may contribute to increased costs and to the deterioration of the reserves of our insurance subsidiary.

Loss severity in the property and casualty insurance industry has continued to increase in recent years, principally driven by larger court judgments. In addition, many legal actions and proceedings have been brought

on behalf of classes of complainants, which can increase the size of judgments. The propensity of policyholders and third party claimants to litigate and the willingness of courts to expand causes of loss and the size of awards may render our loss reserves inadequate for current and future losses.

The failure of the risk mitigation strategies we utilize could have a material adverse effect on our financial condition or results of operations.

We utilize a number of strategies to mitigate risk exposure within our insurance business, which include:

- engaging in vigorous underwriting;
- carefully evaluating terms and conditions of our policies;
- focusing on our risk aggregations by geographic zones and other bases; and
- ceding insurance risk to reinsurance companies.

However, there are inherent limitations in all of these tactics. We cannot provide assurance that an event or series of unanticipated events will not result in loss levels which could have a material adverse effect on our financial condition or results of operations.

The failure of any of the loss limitation methods we employ could have a material adverse effect on our financial condition or our results of operations.

Our insurance underwriting process is designed to limit our exposure to known risks, including but not limited to exclusions relating to homes in close proximity to the coast line. Various provisions of our policies, such as limitations or exclusions from coverage which have been negotiated to limit our risks, may not be enforceable in the manner we intend.

In addition, the policies we issue contain conditions requiring the prompt reporting of claims to us and our right to decline coverage in the event of a violation of that condition. While our insurance product exclusions and limitations reduce the loss exposure to us and help eliminate known exposures to certain risks, it is possible that a court or regulatory authority could nullify or void an exclusion or legislation could be enacted modifying or barring the use of such endorsements and limitations in a way that would adversely effect our loss experience, which could have a material adverse effect on our financial condition or results of operations.

In the future, we may rely on independent agents to write our insurance policies, and if we are not able to contract with and retain independent agents, our revenues would be negatively affected.

Although voluntary policies comprise a minute percentage of our business, we expect to increase the number of voluntary policies we write as our business expands. An inability to sell our products through independent agents would negatively affect our revenues.

Many of our competitors rely on independent agents. As a result, we must compete with other insurers for independent agents' business. Our competitors may offer a greater variety of insurance products, lower premiums for insurance coverage, or higher commissions to their agents. If our products, pricing and commissions do not remain competitive, we may find it more difficult to attract business from independent agents to sell our products. A material reduction in the amount of our products that independent agents sell could negatively affect our revenues.

Our success depends on our ability to accurately price the risks we underwrite.

The results of our operations and our financial condition depend on our ability to underwrite and set premium rates accurately for a wide variety of risks. Rate adequacy is necessary to generate sufficient premiums

to pay losses, loss adjustment expenses, and underwriting expenses and to earn a profit. In order to price our products accurately, we must collect and properly analyze a substantial amount of data; develop, test and apply appropriate rating formulas; closely monitor and timely recognize changes in trends; and project both severity and frequency of losses with reasonable accuracy. Our ability to undertake these efforts successfully, and as a result price our products accurately, is subject to a number of risks and uncertainties, some of which are outside our control, including —

- the availability of sufficient reliable data and our ability to properly analyze available data;
- the uncertainties that inherently characterize estimates and assumptions;
- our selection and application of appropriate rating and pricing techniques;
- changes in legal standards, claim settlement practices, and restoration costs; and
- legislatively imposed consumer initiatives.

In addition, we could underprice risks, which would negatively affect our profit margins. We could also overprice risks, which could reduce our sales volume and competitiveness. In either event, our profitability could be materially and adversely affected.

Current operating resources are necessary to develop future new insurance products.

We may expand our product offerings by underwriting additional insurance products and programs, and marketing them through our independent agent network. Expansion of our product offerings will result in increases in expenses due to additional costs incurred in actuarial rate justifications, software and personnel. Offering additional insurance products will also require regulatory approval, further increasing our costs and potentially affecting the speed with which we will be able to pursue new market opportunities. We cannot assure you that we will be successful bringing new insurance products to our marketplace.

As an insurance holding company, we are currently subject to regulation by the State of Florida and in the future may become subject to regulation by certain other states or a federal regulator.

All states regulate insurance holding company systems. State statutes and administrative rules generally require each insurance company in the holding company group to register with the department of insurance in its state of domicile and to furnish information concerning the operations of the companies within the holding company system which may materially affect the operations, management or financial condition of the insurers within the group. As part of its registration, each insurance company must identify material agreements, relationships and transactions with affiliates, including without limitation loans, investments, asset transfers, transactions outside of the ordinary course of business, certain management, service, and cost sharing agreements, reinsurance transactions, dividends, and consolidated tax allocation agreements.

Insurance holding company regulations generally provide that transactions between an insurance company and its affiliates must be fair and equitable, allocated between the parties in accordance with customary accounting practices, and fully disclosed in the records of the respective parties. Many types of transactions between an insurance company and its affiliates, such as transfers of assets among such affiliated companies, certain dividend payments from insurance subsidiaries and certain material transactions between companies within the system may be subject to prior approval by, or prior notice to, state regulatory authorities. If we are unable to obtain the requisite prior approval for a specific transaction, we would be precluded from taking the action which could adversely affect our operations.

In addition, state insurance regulations also frequently impose notice or approval requirements for the acquisition of specified levels of ownership in the insurance company or insurance holding company. For example, Section 428.461, Florida Statutes, states that a person may not, individually or in conjunction with any

affiliated person of such person, acquire directly or indirectly, conclude a tender offer or exchange offer for, enter into any agreement to exchange securities for, or otherwise finally acquire 5 percent or more of the outstanding voting securities of a domestic stock insurer or of a controlling company, unless we are in compliance with certain notice and approval requirements.

We currently operate only in the state of Florida. In the future, we may become authorized to transact business in other states and therefore will become subject to the laws and regulatory requirements of those states. These regulations may vary from state to state, and states occasionally may have conflicting regulations. Since Florida is HCPCI's state of domicile, Florida laws will generally take precedence. Currently, the federal government's role in regulating or dictating the policies of insurance companies is limited. However, Congress, from time to time, considers proposals that would increase the role of the federal government in insurance regulation, either in addition to or in lieu of state regulation. The impact of any future federal insurance regulation on our insurance operations is unclear and may adversely impact our business or competitive position.

HCPCI is subject to extensive regulation which may reduce our profitability or limit our growth. Moreover, if we fail to comply with these regulations, we may be subject to penalties, including fines and suspensions, which may adversely affect our financial condition and results of operations.

The insurance industry is highly regulated and supervised. HCPCI is subject to the supervision and regulation of the state in which it is domiciled (Florida) and the state(s) in which it does business (currently only Florida). Such supervision and regulation is primarily designed to protect our policyholders rather than our shareholders. These regulations are generally administered by a department of insurance in each state and relate to, among other things —

- the content and timing of required notices and other policyholder information;
- the amount of premiums the insurer may write in relation to its surplus;
- the amount and nature of reinsurance a company is required to purchase;
- participation in guaranty funds and other statutorily created markets or organizations;
- business operations and claims practices;
- approval of policy forms and premium rates;
- standards of solvency, including risk-based capital measurements;
- licensing of insurers and their products;
- restrictions on the nature, quality and concentration of investments;
- restrictions on the ability of insurance company subsidiaries to pay dividends to insurance holding companies;
- restrictions on transactions between insurance companies and their affiliates;
- restrictions on the size of risks insurable under a single policy;
- requiring deposits for the benefit of policyholders;
- requiring certain methods of accounting;
- periodic examinations of our operations and finances;
- the form and content of records of financial condition required to be filed; and
- requiring reserves.

The FLOIR and regulators in other jurisdictions where we may become licensed and offer insurance products conduct periodic examinations of the affairs of insurance companies and require the filing of annual and

other reports relating to financial condition, holding company issues and other matters. These regulatory requirements may adversely affect or inhibit our ability to achieve some or all of our business objectives. These regulatory authorities also conduct periodic examinations into insurers' business practices. These reviews may reveal deficiencies in our insurance operations or differences between our interpretations of regulatory requirements and those of the regulators.

HCPCI is subject to assessments levied by the Florida Insurance Guaranty Association, Inc. While we can recover these assessments from policyholders through policy surcharges, our payment of the assessments and our recoveries may not offset each other in the same reporting period in our financial statements and may cause a material adverse effect on our results of operations in a particular reporting period.

In addition, regulatory authorities have relatively broad discretion to deny or revoke licenses for various reasons, including the violation of regulations. In some instances, we follow practices based on our interpretations of regulations or practices that we believe may be generally followed by the industry. These practices may turn out to be different from the interpretations of regulatory authorities. If we do not have the requisite licenses and approvals or do not comply with applicable regulatory requirements, insurance regulatory authorities could preclude or temporarily suspend us from carrying on some or all of our activities or otherwise penalize us. This could adversely affect our ability to operate our business.

Finally, changes in the level of regulation of the insurance industry or changes in laws or regulations themselves or interpretations by regulatory authorities could adversely affect our ability to operate our business, reduce our profitability and limit our growth.

Our marina operations are subject to regulation under various federal, state, and local laws concerning the environment.

In April 2011, we acquired real estate that included a marina operation in Tierra Verde, Florida, and in April 2012, we acquired real estate in Treasure Island, Florida that also includes a marina operation. Our marina operations are subject to regulation under various federal, state, and local laws concerning the environment, including laws addressing the discharge of pollutants into the air and water and the management and disposal of hazardous substances and wastes and the cleanup of contaminated sites. We could incur substantial costs, including cleanup costs, fines and civil or criminal sanctions and third-party damage or personal injury claims, if in the future we were to violate or become liable under environmental laws relating to our marina operations. With respect to an existing environmental remediation plan we assumed in April 2011 when we acquired the real estate in Tierra Verde, Florida, there can be no assurance that the remediation plan will be successful or that the cost will not exceed the \$150,000 accrued at acquisition, of which \$53,000 had been paid at December 31, 2012.

Our restaurant operations expose us to additional risks which could negatively impact our operating results and financial condition.

In April 2012, we acquired real estate in Treasure Island, Florida that includes a restaurant. Our restaurant operations could expose us to business risks that are different than the insurance business. For example, restaurant operations are dependent in large part on food, beverage, and supply costs that are not within our control. Also, the restaurant industry is affected by changes in consumer preferences and discretionary spending patterns that could adversely affect revenues from restaurant operations. Moreover, the restaurant industry is affected by litigation and publicity concerning food quality, health, and other issues which can cause guests to avoid restaurants and that can result in liabilities. Any one of these risks, among others, could negatively impact our operating results and financial condition.

Our operations in India expose us to additional risks which could negatively impact our business, operating results, and financial condition.

Our India operations expose us to additional risks including currency exchange rate fluctuations and risks related to other challenges caused by distance, language, and compliance with Indian labor laws and other complex foreign and U.S. laws and regulations that apply to our India operations. These numerous and sometimes conflicting laws and regulations include anti-corruption laws, such as the Foreign Corrupt Practices Act, and other local laws prohibiting corrupt payments to governmental officials, among others. Violations of these laws and regulations could result in fines and penalties, or criminal sanctions against us, our officers, or our employees. Although policies and procedures are designed to ensure compliance with these laws and regulations, there can be no assurance that our employees, contractors, or agents will not violate our policies.

ITEM 1B – Unresolved Staff Comments

Not applicable.

ITEM 2 – Properties

On November 7, 2012, we entered into an agreement to lease 15,000 square feet of office space in Noida, India. The lease has an initial term of nine years commencing January 15, 2013 with monthly rental payments of approximately \$10,200 plus applicable service tax for the first year. Thereafter the monthly rental payment will increase by five percent every year. We are entitled to terminate the lease after the 36-month period following the commencement date by providing 3 months' written notice to the landlord.

On April 2, 2012, we purchased real estate in Treasure Island, Florida. Assets included with the acquisition consist of approximately 10 acres of waterfront property and land improvements, a restaurant and a marina facility. The marina facility and the restaurant are currently operated by us.

On April 20, 2011, we purchased real estate in Tierra Verde, Florida. The real estate consists of 7.1 acres of land, a dry rack storage building with gross area of 57,500 square feet, and three buildings with retail space having an aggregate gross area of 25,082 square feet. This marina facility is being operated by us. Approximately 62% of the available retail space is leased to non-affiliates.

On June 1, 2010, we purchased real estate in Tampa, Florida. The real estate consists of 3.5 acres of land, a building with gross area of 122,000 square feet, and a four-level parking garage. This facility is used by us and our U.S. subsidiaries and serves as our principal executive and principal operational office. Since June 2011, the majority of our U.S. employees have been headquartered in the Tampa facility. In addition, we lease an aggregate of approximately 46,000 square feet to non-affiliates.

Rental expense under all facility leases was \$527,000, \$239,000 and \$191,000 during the years ended December 31, 2012, 2011 and 2010, respectively, which includes expense in each year related to our former corporate headquarters.

ITEM 3 – Legal Proceedings

We are a party to claims and legal actions arising routinely in the ordinary course of our business. Although we cannot predict with certainty the ultimate resolution of the claims and lawsuits asserted against us, we do not believe that any currently pending legal proceedings to which we are a party will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

ITEM 4 – Mine Safety Disclosures

Not applicable.

PART II

ITEM 5 – Market for the Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Markets for Common Stock

On October 25, 2012, our common stock began trading on the New York Stock Exchange under the symbol “HCL.” Prior to the aforementioned date, our common stock was traded on the NASDAQ Global Select Market under the symbol “HCII.” The following table represents the high and low sales prices for our common stock as reported by the NASDAQ Global Select Market and the New York Stock Exchange for the periods indicated:

	Common Stock Price	
	High	Low
<u>Calendar Quarter – 2012</u>		
First Quarter	\$14.14	7.88
Second Quarter	\$17.60	11.85
Third Quarter	\$23.98	16.51
Fourth Quarter	\$26.60	18.29
<u>Calendar Quarter – 2011</u>		
First Quarter	\$ 8.70	7.81
Second Quarter	\$ 8.24	6.27
Third Quarter	\$ 7.00	6.05
Fourth Quarter	\$ 8.24	6.07

Holdings

As of March 1, 2013, the market price for our common stock was \$20.57 and there were 142 holders of record of our common stock.

Dividends

The declaration and payment of dividends is at the discretion of our board of directors. Our ability to pay dividends depends on many factors, including the Company’s operating results, financial condition, capital requirements, and legal and regulatory constraints and requirements on the payment of dividends, which are discussed in Note 15 – “Regulatory Requirements and Restrictions” to our consolidated financial statements under Item 8 of this Annual Report on Form 10K, and such other factors as our board of directors deems relevant. The following table represents the frequency and amount of all cash dividends declared on common equity for the two most recent fiscal years:

Declaration Date	Payment Date	Date of Record	Per Share Amount
1/26/2011	3/18/2011	2/18/2011	\$0.100
4/26/2011	6/17/2011	5/20/2011	\$0.100
7/26/2011	9/16/2011	8/19/2011	\$0.100
11/21/2011	12/16/2011	12/1/2011	\$0.125
11/21/2011	12/16/2011	12/1/2011	\$0.100
1/16/2012	3/16/2012	2/17/2012	\$0.150
3/28/2012	6/15/2012	5/17/2012	\$0.200
7/25/2012	9/21/2012	8/17/2012	\$0.200
10/19/2012	12/21/2012	11/16/2012	\$0.225
10/19/2012	12/21/2012	11/16/2012	\$0.100

Under Florida law, a domestic insurer such as HCPCI, may not pay any dividend or distribute cash or other property to its stockholder except out of that part of its available and accumulated capital and surplus funds which is derived from realized net operating profits on its business and net realized capital gains. Additionally, Florida statutes preclude HCPCI from making dividend payments or distributions to its stockholder, Homeowners Choice, Inc., without prior approval of the FLOIR if the dividend or distribution would exceed the larger of (1) the lesser of (a) 10.0% of its capital surplus or (b) net income, not including realized capital gains, plus a two year carry forward, (2) 10.0% of capital surplus with dividends payable constrained to unassigned funds minus 25% of unrealized capital gains or (3) the lesser of (a) 10.0% of capital surplus or (b) net investment income plus a three year carry forward with dividends payable constrained to unassigned funds minus 25% of unrealized capital gains.

We currently expect that we will continue to pay cash dividends on our common stock at a rate comparable to our historical dividend payments, although we are not obligated to do so and may discontinue cash dividends or change the cash-dividend rate on our common stock at any time and for any reason.

Securities Authorized for Issuance Under Equity Compensation Plans

The following table summarizes our equity compensation plans as of December 31, 2012. We currently have no equity compensation plans not approved by our stockholders.

<u>Plan Category</u>	<u>(a)</u> Number of Securities To be Issued Upon Exercise of Outstanding Options	<u>(b)</u> Weighted-Average Exercise Price of Outstanding Options	<u>(c)</u> Number of Securities Remaining Available for Future Issuance under Equity Compensation Plans (Excluding Securities Reflected in Column (a))
Equity Compensation Plans Approved by Stockholders	<u>280,000</u>	<u>\$2.91</u>	<u>4,953,680</u>

Performance Graph

The line graph presented below compares the cumulative total dollar stockholder return on our common stock for the period beginning September 15, 2008* and ending on December 31, 2012 with those of the Russell 2000 Index for a broad equity market index and the NASDAQ Insurance Index for a peer group. The graph shows the change in value of an initial \$100 investment over the aforementioned period, assuming all dividends are reinvested.

* September 15, 2008 represents the date that our common stock and warrants issued in our initial public offering commenced trading separately on the exchange.

Recent Sales of Unregistered Securities

On November 2, 2011, we agreed to issue to Glencoe Acquisition, Inc., 1,000,000 warrants for the purchase of up to 500,000 of our common shares in connection with the HomeWise assumption transaction. These warrants were exercised on December 3, 2012. The warrants, and the shares issuable pursuant thereto, were issued pursuant to the exemption from registration afforded by Section 4(2) of the Securities Act of 1933, as amended.

Issuer Purchases of Equity Securities

None.

ITEM 6 – Selected Financial Data

The following selected consolidated financial data should be read in conjunction with Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our consolidated financial statements and the related notes appearing in Item 8 “Financial Statements and Supplementary Data” of this Annual Report on Form 10-K. The consolidated statements of income data for the years ended December 31, 2012, 2011, and 2010 and the consolidated balance sheet data at December 31, 2012 and 2011 are derived from our audited consolidated financial statements appearing in Item 8 of this Annual Report on Form 10-K. The consolidated statements of income data for the years ended December 31, 2009 and 2008, and the consolidated balance sheet data at December 31, 2010, 2009, and 2008, are derived from our audited consolidated financial statements that are not included in this Annual Report on Form 10-K. Certain reclassifications of prior year amounts have been made to conform to the current year presentation. The historical results are not necessarily indicative of the results to be expected in any future period.

	As of or for the Years Ended December 31,				
	2012	2011	2010	2009	2008
	(Dollars in thousands, except per share amounts)				
Operating Revenue					
Gross premiums earned	\$233,607	143,606	119,757	110,011	61,925
Premiums ceded	(75,939)	(55,525)	(57,322)	(44,674)	(14,659)
Net premiums earned	157,668	88,081	62,435	65,337	47,266
Net investment income	980	2,061	1,962	1,793	1,622
Policy fee income	2,538	1,438	1,464	1,226	530
Realized investment gains	276	290	2,003	—	—
Gain on bargain purchase	179	936	—	—	—
Other income	1,424	1,003	751	22	115

ITEM 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this annual report on Form 10-K.

Forward-Looking Statements

In addition to historical information, this annual report on Form 10-K contains forward-looking statements as defined under federal securities laws. Such statements involve risks and uncertainties, such as statements about our plans, objectives, expectations, assumptions or future events. These statements involve estimates, assumptions, known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from any future results, performances or achievements expressed or implied by the forward-looking statements. The important factors that could cause actual results to differ materially from those indicated by such forward-looking statements include but are not limited to the effect of governmental regulation; changes in insurance regulations; the frequency and extent of claims; uncertainties inherent in reserve estimates; catastrophic events; a change in the demand for, pricing of, availability of or collectability of reinsurance; restrictions on our ability to change premium rates; increased rate pressure on premiums and other risks and uncertainties and other factors listed under Item 1A – “Risk Factors” and elsewhere in this annual report on Form 10-K and in our other Securities and Exchange Commission filings.

OVERVIEW

General

HCI is a Florida-based holding company primarily providing property and casualty insurance to homeowners, condominium owners, and tenants in the state of Florida through its subsidiaries. We offer insurance products at competitive rates, while pursuing profitability using selective underwriting criteria.

We began operations in 2007 by participating in a “take-out program” which is a legislatively mandated program designed to encourage private companies to assume policies from Citizens. Our growth since inception has resulted primarily from a series of policy assumptions from Citizens and one from HomeWise. This growth track has been beneficial to us in terms of reduced policy acquisition and reinsurance costs. Even though expanding our policyholder base through opportunistic assumptions continues to be important to our growth plan, we plan to seek opportunities to expand and to provide new product offerings.

Recent Developments

On February 28, 2013, we purchased real estate in Ocala, Florida for a total purchase price of \$2.0 million. The real estate consists of 1.6 acres of land and a vacant office building with gross area of approximately 16,000 square feet. The facility will be used by us primarily in the event a catastrophic event impacts our home office and support operations.

On January 17, 2013, we completed the sale of unsecured senior notes in a public offering for an aggregate principal amount of \$35 million. In addition, effective January 25, 2013, we received an aggregate principal amount of \$5.3 million pursuant to the underwriters’ exercise of the over-allotment option. The combined net proceeds after underwriting and issuance costs approximate \$38.7 million. The offering was made pursuant to our effective registration statement on Form S-3, as amended (Registration Statement No. 333-185228) and our Prospectus Supplement dated January 10, 2013. The notes, due in 2020, bear interest at a fixed annual rate of 8% which is payable quarterly. The notes may be redeemed, in whole or in part, at any time on and after January 30, 2016 and will rank on parity with all of our future unsecured senior debt.

On January 22, 2013, our Board of Directors declared a quarterly dividend of \$0.225 per common share. The dividends will be paid March 15, 2013 to stockholders of record on February 15, 2013.

HCPCI received a Notice of 2012 Assessment from the Florida Insurance Guaranty Association, Inc. (“FIGA”) that was issued on November 21, 2012. All admitted carriers in Florida that transact the statutorily covered lines of business are required to become members of FIGA, which was formed to provide a mechanism for the payment of covered claims in the event of the insolvency of an insurer. The assessment, which was approved by the FLOIR, is equal to 0.9% of each insurer’s net direct written premiums for the 2011 calendar year from specified categories of property and liability lines of business. The amount of the assessment was approximately \$1.1 million, of which \$657,000 was charged to our operations in the fourth quarter of 2012 and the balance of \$482,000 was recorded as an asset recoverable from policyholders. HCPCI has filed with the FLOIR to enable HCPCI to recover the full amount of this assessment from its policyholders.

Effective November 6, 2012, we assumed approximately 60,000 policies upon completion of our ninth assumption transaction with Citizens representing approximately \$150 million in additional annualized premiums.

RESULTS OF OPERATIONS

Comparison of the Year Ended December 31, 2012 to the Year Ended December 31, 2011

Our results of operations for the year ended December 31, 2012 reflect income available to common stockholders of \$29.8 million, or \$3.02 earnings per diluted common share, compared with income available to common stockholders of \$9.1 million, or \$1.34 earnings per diluted common share, for the year ended December 31, 2011. Our results for the years ended December 31, 2012 and 2011 include bargain purchase gains on acquisitions of \$179,000 (\$110,000 net of tax) and \$936,000 (\$575,000 net of tax), respectively, or \$0.01 and \$0.08 diluted earnings per common share, respectively.

Revenue

Gross Premiums Earned for the year ended December 31, 2012 were \$233.6 million and reflect the revenue from policies acquired from HomeWise in November 2011 and policies originally assumed from Citizens and subsequent renewals, including approximately 60,000 policies assumed in November 2012. Gross premiums earned for the year ended December 31, 2011 were \$143.6 million and principally reflect the revenue from policies assumed from Citizens and subsequent renewals.

Premiums Ceded for the years ended December 31, 2012 and 2011 were \$75.9 million and \$55.5 million, respectively. Our premiums ceded represent amounts paid to reinsurers to cover losses from catastrophes that exceed the thresholds defined by our catastrophe excess of loss reinsurance treaties. Our reinsurance rates are based primarily on policy exposures reflected in gross premiums earned. Premiums ceded were 32.5% and 38.7% of gross premiums earned during the years ended December 31, 2012 and 2011, respectively. The percentage decrease in 2012 is primarily due to lower costs during the first five months of 2012 related to policies assumed from HomeWise, which were subject to minimal reinsurance premiums. In addition, we have two months of earned premium in 2012 related to the November 2012 Citizens assumption with no associated increase in reinsurance premium.

Net Premiums Earned for the years ended December 31, 2012 and 2011 were \$157.7 million and \$88.1 million, respectively, and reflect the gross premiums earned less reinsurance costs as described above.

Net Premiums Written during the years ended December 31, 2012 and 2011 totaled \$203.2 million and \$131.7 million, respectively. Net premiums written represent the premiums charged on policies issued during a fiscal period less reinsurance costs.

The following is a reconciliation of our total Net Premiums Written to Net Premiums Earned for the years ended December 31, 2012 and 2011 (in thousands):

	<u>Years Ended December 31,</u>	
	<u>2012</u>	<u>2011</u>
Net Premiums Written	\$203,240	131,724
Increase in Unearned Premiums	<u>(45,572)</u>	<u>(43,643)</u>
Net Premiums Earned	<u>\$157,668</u>	<u>88,081</u>

Net Investment Income for the years ended December 31, 2012 and 2011 was \$1.0 million and \$2.1 million, respectively. The decline in 2012 is primarily due to operating losses incurred with respect to certain operations of our real estate investments.

Policy Fee Income for the years ended December 31, 2012 and 2011 was \$2.5 million and \$1.4 million, respectively, and reflects the policy fee income we earn with respect to our issuance of renewal policies.

Gain on Bargain Purchase was \$179,000 (\$110,000 net of tax), or \$0.01 diluted earnings per common share, and \$936,000 (\$575,000 net of tax), or \$0.08 diluted earnings per common share, for the years ended December 31, 2012 and 2011, respectively. The bargain purchase gains relate to our business acquisitions completed in April 2012 and in April 2011.

Other Income for the years ended December 31, 2012 and 2011 was \$1.4 million and \$1.0 million, respectively. The increase in other income in 2012 is primarily due to policy payment plan fees.

Expenses

Our *Losses and Loss Adjustment Expenses* amounted to \$66.3 million and \$48.2 million, respectively, during the years ended December 31, 2012 and 2011. Our losses for the year ended December 31, 2012 include approximately \$1.4 million and \$2.1 million related to case reported claims from Tropical Storm Debby and Tropical Storm Isaac, respectively, which occurred in June and August 2012.

Our liability for losses and loss adjustment expense (“Reserves”), which is more fully described below under “Critical Accounting Policies and Estimates,” are specific to homeowners insurance, which is HCPCI’s only line of business. These Reserves include both case reserves on reported claims and our reserves for “IBNR” losses. At each period-end date, the balance of our Reserves is based on our best estimate of the ultimate cost of each claim for those known cases and the IBNR loss reserves are estimated based primarily on our historical experience. Our Reserves increased from \$27.4 million at December 31, 2011 to \$41.2 million at December 31, 2012. The \$13.8 million increase in our Reserves is comprised of \$29.5 million in new reserves specific to the year ended December 31, 2012 offset by reductions of \$11.1 million and \$4.7 million in our Reserves for 2011 and 2010 and prior loss years, respectively. The \$29.5 million in Reserves established for 2012 claims is primarily due to the increase in our policy exposure. The decrease of \$15.8 million specific to our 2011 and 2010 and prior loss-year reserves is due to favorable development arising from lower than expected loss development during 2012 relative to expectations used to establish our Reserve estimates at the end of 2011. Factors that are attributable to this favorable development may include a lower severity of claims than the severity of claims considered in establishing our Reserves and actual case development may be more favorable than originally anticipated.

Policy Acquisition and Other Underwriting Expenses for the years ended December 31, 2012 and 2011 were \$25.9 million and \$18.1 million, respectively, and primarily reflect the amortization of deferred acquisition costs, commissions payable to agents for production and renewal of policies, and premium taxes and policy fees. The \$7.8 million increase in 2012 is primarily attributable to an increase in our commissions and premium taxes for

policy renewals combined with the one-time, \$1.2 million adjustment specific to our adoption in January 2012 of the accounting standard update related to deferred acquisition costs (see Note 2 – “Recent Accounting Pronouncements” to the consolidated financial statements).

Other Operating Expenses for the years ended December 31, 2012 and 2011 were \$21.1 million and \$11.0 million, respectively. The \$10.1 million increase is primarily attributable to a \$7.4 million increase in compensation and related expenses of which \$2.4 million relates to an increase in stock-based compensation and cash bonus expense. The remaining increase of \$2.7 million relates to our other administrative costs, which include a variety of professional service fees, license fees, corporate insurances, lease expense, information system expense, and other general expenses. Our 2012 compensation and related expenses include a full year of payroll expense related to our India operations (acquired in November 2011) and to the employees hired in late 2011 to service policies acquired from HomeWise. As of December 31, 2012, we had 145 employees located at our headquarters in Tampa, Florida compared to 119 employees as of December 31, 2011. We also had 62 employees located in Noida, India at December 31, 2012 versus 68 at December 31, 2011.

Income Taxes for the years ended December 31, 2012 and 2011 were \$19.2 million and \$6.4 million, respectively, for state, federal and foreign income taxes resulting in an effective tax rate of 39.2% for 2012 and 39.3% for 2011.

Ratios:

The loss ratio applicable to the year ended December 31, 2012 (loss and loss adjustment expenses related to net premiums earned) was 42.1% compared to 54.8% for the year ended December 31, 2011. Our loss ratio was positively impacted by a significant increase in our gross premiums earned during 2012 (see *Gross Premiums Earned above*).

The expense ratio applicable to the year ended December 31, 2012 (policy acquisition and other underwriting expenses related to net premiums earned plus compensation, employee benefits, and other operating expenses) was 29.9% compared to 33.1% for the year ended December 31, 2011. The decrease in our expense ratio is attributable to the significant increase in our gross premiums earned as we experienced an increase in other operating expenses during 2012 (see *Other Operating Expenses above*).

The combined loss and expense ratio (total of all expenses related to net premiums earned) is the key measure of underwriting performance traditionally used in the property and casualty industry. A combined ratio under 100% generally reflects profitable underwriting results. A combined ratio over 100% generally reflects unprofitable underwriting results. Our combined ratio for the year ended December 31, 2012 was 72.0% compared to 87.9% for the year ended December 31, 2011.

Due to the impact our reinsurance costs have on net premiums earned from period to period, our management believes the combined loss and expense ratio measured to gross premiums earned is more relevant in assessing overall performance. The combined loss and expense ratio to gross premiums earned for the year ended December 31, 2012 was 48.6% compared to 53.9% for the year ended December 31, 2011.

Comparison of the Year Ended December 31, 2011 to the Year Ended December 31, 2010

Our results of operations for the year ended December 31, 2011 reflect income available to common stockholders of \$9.1 million, or \$1.34 earnings per diluted common share, compared to income available to common stockholders of \$5.4 million, or \$0.81 earnings per diluted common share, for the year ended December 31, 2010. Our results for the year ended December 31, 2011 include a bargain purchase gain of \$936,000 (\$575,000 net of tax), or \$0.08 diluted earnings per common share. The bargain purchase gain relates to our business acquisition completed in April 2011.

Revenue

Gross Premiums Earned for the year ended December 31, 2011 were \$143.6 million and principally reflect the revenue from policies acquired from Citizens and HomeWise and subsequent renewals. The policies acquired from HomeWise in November 2011 contributed approximately \$18.3 million to our 2011 gross premiums earned. Gross premiums earned for the year ended December 31, 2010 were \$119.8 million and principally reflect the revenue from policies we acquired from Citizens and subsequent renewals.

Premiums Ceded for the years ended December 31, 2011 and 2010 were \$55.5 million and \$57.3 million, respectively. Our premiums ceded represent amounts paid to reinsurers to cover losses from catastrophes that exceed the thresholds defined by our catastrophe excess of loss reinsurance treaties. Our reinsurance rates are based primarily on policy exposures reflected in gross premiums earned. Premiums ceded were 38.7% and 47.9% of gross premiums earned during the years ended December 31, 2011 and 2010, respectively. The percentage decrease in 2011 is primarily due to lower costs related to policies assumed from HomeWise.

Net Premiums Earned for the years ended December 31, 2011 and 2010 were \$88.1 million and \$62.4 million, respectively, and reflect the gross premiums earned less reinsurance costs as described above. Net premiums earned increased by \$25.7 million in 2011 compared to 2010 a result of the \$23.8 million increase in gross premiums earned combined with a slight decrease of \$1.9 million in premiums ceded.

Net Premiums Written during the years ended December 31, 2011 and 2010 totaled \$131.7 million and \$59.0 million, respectively. Net premiums written represent the premiums charged on policies issued during a fiscal period less reinsurance costs. The significant increase in 2011 compared to 2010 is directly attributed to the HomeWise assumption completed in November 2011.

The following is a reconciliation of our total Net Premiums Written to Net Premiums Earned for the years ended December 31, 2011 and 2010 (in thousands):

	<u>Years Ended December 31,</u>	
	<u>2011</u>	<u>2010</u>
Net Premiums Written	\$131,724	58,960
(Increase) Decrease in Unearned Premiums	(43,643)	3,475
Net Premiums Earned	<u>\$ 88,081</u>	<u>62,435</u>

Policy Fee Income for the years ended December 31, 2011 and 2010 was \$1.4 million and \$1.5 million, respectively, and reflects the policy fee income we earn with respect to our issuance of renewal policies.

Realized Investment Gains for the years ended December 31, 2011 and 2010 of \$0.3 million and \$2.0 million, respectively, reflects the net gain realized from sales of securities during the period.

Gain on Bargain Purchase was \$936,000 (\$575,000 net of tax), or \$0.08 diluted earnings per common share, for the year ended December 31, 2011. The bargain purchase gain relates to our business acquisition completed in April 2011. We had no business acquisitions in 2010.

Other Income for the years ended December 31, 2011 and 2010 was \$1.0 million and \$0.8 million, respectively. Our other income in 2011 and 2010 is primarily rental income from our Tampa office building.

Expenses

Our *Losses and Loss Adjustment Expenses* amounted to \$48.2 million and \$37.7 million, respectively, during the years ended December 31, 2011 and 2010.

Our Reserves, which are more fully described below under “Critical Accounting Policies and Estimates,” are specific to homeowners insurance, which is HCPCI’s only line of business. These Reserves include both case reserves on reported claims and our reserves for IBNR. At each period-end date, the balance of our Reserves is based on our best estimate of the ultimate cost of each claim for those known cases and the IBNR loss reserves are estimated based primarily on our historical experience. Our Reserves increased from \$22.1 million at December 31, 2010 to \$27.4 million at December 31, 2011. The \$5.3 million increase in our Reserves during 2011 is comprised of \$17.5 million in new reserves specific to the year ended December 31, 2011 offset by reductions of \$8.8 million and \$3.4 million in our Reserves for 2010 and 2009 and prior years, respectively. The \$17.5 million in Reserves established for 2011 claims is due to the increase in our policy exposure, which resulted in an increase in the amount of reported losses in 2011. The decrease of \$12.2 million specific to our 2010 and prior loss-year reserves is due to favorable development arising from lower than expected loss development during 2011 relative to expectations used to establish our Reserve estimates at the end of 2010. Factors that are attributable to this favorable development may include a lower severity of claims than the severity of claims considered in establishing our Reserves and actual case development may be more favorable than originally anticipated.

Policy Acquisition and Other Underwriting Expenses for the years ended December 31, 2011 and 2010 of \$18.1 million and \$14.9 million, respectively, primarily reflect the amortization of deferred acquisition costs, commissions payable to agents for production and renewal of policies, and premium taxes and policy fees. The \$3.2 million increase in 2011 is primarily attributable to an increase in our commissions, premium taxes, and other underwriting expenses directly attributable to policy renewals, commissions specific to policies assumed in 2011, and increases in our payroll and other underwriting expenses required to manage our policies in force.

Other Operating Expenses for the years ended December 31, 2011 and 2010 were \$11.0 million and \$7.5 million, respectively. Such expenses include administrative compensation and related benefits, corporate insurance, professional fees, office lease and related expenses, information system expense, and other general and administrative costs. The \$3.5 million increase is primarily attributable to increases in compensation and related expenses, and other general administrative costs of \$2.1 million and \$1.4 million, respectively. As of December 31, 2011, we had 187 employees of which 68 were located in Noida, India and 119 were located primarily at our headquarters in Tampa, Florida. As of December 31, 2010 we had 76 employees.

Income Taxes for the years ended December 31, 2011 and 2010 were \$6.4 million and \$3.2 million, respectively, for state and federal income taxes resulting in an effective tax rate of 39.3% for 2011 and 36.9% for 2010.

Ratios:

The loss ratio applicable to the year ended December 31, 2011 (loss and loss adjustment expenses related to net premiums earned) was 54.8% compared to 60.3% for the year ended December 31, 2010. Our loss ratio was positively impacted by a significant increase in our gross premiums earned during 2011 (see *Gross Premiums Earned* above).

The expense ratio applicable to the year ended December 31, 2011 (policy acquisition and other underwriting expenses related to net premiums earned plus compensation, employee benefits, and other operating expenses) was 33.1% compared to 35.8% for the year ended December 31, 2010. The decrease in our expense ratio is attributable to the significant increase in our gross premiums earned as we experienced an increase in our policy acquisition and other underwriting expenses during 2011 (see *Policy Acquisition and Other Underwriting Expenses* above).

The combined loss and expense ratio (total of all expenses related to net premiums earned) is the key measure of underwriting performance traditionally used in the property and casualty industry. A combined ratio

under 100% generally reflects profitable underwriting results. A combined ratio over 100% generally reflects unprofitable underwriting results. Our combined ratio for the year ended December 31, 2011 was 87.9% compared to 96.2% for the year ended December 31, 2010.

Due to the impact our reinsurance costs have on net premiums earned from period to period, our management believes the combined loss and expense ratio measured to gross premiums earned is more relevant in assessing overall performance. The combined loss and expense ratio to gross premiums earned for the year ended December 31, 2011 was 53.9% compared to 50.1% for the year ended December 31, 2010.

Seasonality of Our Business

Our insurance business is seasonal as hurricanes and tropical storms typically occur during the period from June 1 through November 30 each year. With our reinsurance treaty year effective on June 1 each year, any variation in the cost of our reinsurance, whether due to changes in reinsurance rates or changes in the total insured value of our policy base, will occur and be reflected in our financial results beginning June 1 each year.

LIQUIDITY AND CAPITAL RESOURCES

Since inception, our liquidity requirements have been met through issuance of our common and preferred stock, our recent debt offering and funds from operations. We expect our future liquidity requirements will be met by funds from operations, primarily the cash received by HCPCI from premiums written and investment income. In addition, we may consider raising capital through future debt and equity offerings.

HCPCI requires liquidity and adequate capital to meet ongoing obligations to policyholders and claimants and to fund operating expenses. In addition, we attempt to maintain adequate levels of liquidity and surplus to manage any differences between the duration of our liabilities and invested assets. In the insurance industry, cash collected for premiums from policies written is invested, interest and dividends are earned thereon, and loss and loss adjustment expenses are paid out over a period of years. This period of time varies by the circumstances surrounding each claim. A substantial portion of our losses and loss expenses are fully settled and paid within 90 days of the claim receipt date. Additional cash outflow occurs through payments of underwriting costs such as commissions, taxes, payroll, and general overhead expenses.

We believe that we maintain sufficient liquidity to pay HCPCI's claims and expenses, as well as satisfy commitments in the event of unforeseen events such as reinsurer insolvencies, inadequate premium rates, or reserve deficiencies. We maintain a comprehensive reinsurance program at levels management considers adequate to diversify risk and safeguard our financial position.

In the future, we anticipate our primary use of funds will be to pay claims and reinsurance premiums, and fund operating expenses.

Common Stock

On April 19, 2012, we entered into an underwriting agreement (the "Underwriting Agreement") pursuant to which we agreed to sell 1,600,000 shares of our common stock, no par value per share (the "Common Stock"), for \$11.75 per share, less a 6.0% underwriting commission. Under the terms of the Underwriting Agreement, we granted the underwriter an option to purchase up to an additional 240,000 shares of Common Stock at the public offering price, less a 6.0% underwriting commission, within 45 days from the date of the Underwriting Agreement to cover over-allotments, if any. The offering was made pursuant to our effective registration statement on Form S-3, as amended (Registration Statement No. 333-180322), and the Prospectus Supplement dated April 19, 2012. On April 23, 2012, the underwriter elected to fully exercise its overallotment option. The closing of the sale of an aggregate of 1,840,000 shares of Common Stock occurred on April 25, 2012. The offering resulted in aggregate gross proceeds to us of approximately \$21.6 million and net proceeds of approximately \$20.1 million after underwriting commissions and offering expenses.

Preferred Stock

On March 25, 2011, we closed our preferred stock offering under which a total of 1,247,700 shares of our Series A cumulative convertible preferred stock (“Series A Preferred”) were sold for gross proceeds of approximately \$12.5 million and net proceeds after offering costs of approximately \$11.3 million. Dividends on the Series A Preferred are cumulative from the date of original issue and accrue on the last day of each month, at an annual rate of 7.0% of the \$10.00 liquidation preference per share, equivalent to a fixed annual amount of \$0.70 per share. Accrued but unpaid dividends accumulate and earn additional dividends at 7.0%, compounded monthly.

Shareholders of Series A Preferred may convert all or any portion of their shares, at their option, at any time, into shares of our common stock at an initial conversion rate of one share of common stock for each share of Series A Preferred, which is equivalent to an initial conversion price of \$10.00 per share; provided, however, that we may terminate this conversion right on or after March 31, 2014, if for at least twenty trading days within any period of thirty consecutive trading days, the market price of our common stock exceeds the conversion price of the Series A Preferred by more than 20% and our common stock is then traded on the New York Stock Exchange, the NASDAQ Global Select Market, the NASDAQ Global Market, the NASDAQ Capital Market, or the NYSE Amex. Under certain circumstances, we will be required to adjust the conversion rate. The initial conversion price of \$10.00 per share is subject to proportionate adjustment in the event of stock splits, reverse stock splits, stock dividends, or similar changes with respect to our common stock. During the year ended December 31, 2012, holders of 1,006,518 shares of Series A Preferred converted their Series A Preferred shares to 1,006,518 shares of common stock. There were 241,182 shares of Series A Preferred outstanding as of December 31, 2012. Shareholders of record of our Series A Preferred at the close of business on a date for determining shareholders entitled to dividends will be entitled to receive the dividends payable on their Series A Preferred shares on the corresponding dividend payment date notwithstanding the conversion of such Series A Preferred shares before the dividend payment date. The Series A Preferred terms include a provision requiring such shareholders to pay an amount equal to the amount of the dividend payable. However, we have permanently waived that requirement.

The Series A Preferred is not redeemable prior to March 31, 2014. If we issue a conversion cancellation notice, the Series A Preferred will be redeemable on or after March 31, 2014 for cash, at our option, in whole or in part, at \$10.00 per share, plus accrued and unpaid dividends to the redemption date. Otherwise, the Series A Preferred will be redeemable for cash, at our option, in whole or in part, at a redemption price equal to \$10.40 per share for redemptions on or after March 31, 2014; \$10.20 per share for redemptions on or after March 31, 2015; and \$10.00 per share for redemptions on or after March 31, 2016, in each case, plus accrued and unpaid dividends to the redemption date.

The Series A Preferred shares have no stated maturity and are not subject to any sinking fund or mandatory redemption requirements.

Holders of the Series A Preferred shares generally have no voting rights, except under limited circumstances, and holders are entitled to receive cumulative preferential dividends when and as declared by our Board of Directors.

Senior Notes Due 2020

In January 2013, we completed the sale of an aggregate of approximately \$40.3 million of our 8.00% Senior Notes due 2020. The Senior Notes were issued under an Indenture, dated January 17, 2013, between us and The Bank of New York Mellon Trust Company, N.A., as Trustee. The Senior Notes bear interest at a rate of 8.00% per year, payable quarterly on January 30, April 30, July 30 and October 30 of each year, beginning on April 30, 2013. Interest on the Senior Notes begins accruing from January 17, 2013, and the Senior Notes will mature on January 30, 2020. We may redeem the Senior Notes, in whole or in part, at any time on and after January 30, 2016, at a redemption price equal to 100% of the principal amount redeemed plus accrued and

unpaid interest to the redemption date. Additionally, we may at any time repurchase Senior Notes at any price in the open market and may hold, resell or surrender such Senior Notes to the Trustee for cancellation. The Senior Notes are our senior unsecured obligations, and rank on a parity with all of our other existing and future senior unsecured obligations. The Indenture relating to the Senior Notes, as supplemented, contains customary events of default. If an event of default occurs and is continuing with respect to any series of the Senior Notes, then the Trustee or the holders of at least 25% of the principal amount of the outstanding Senior Notes may declare the Senior Notes to be due and payable immediately. In addition, in the case of an event of default arising from certain events of bankruptcy, insolvency or reorganization, all outstanding Senior Notes will become due and payable immediately. During the year ended December 31, 2012, we accrued \$128,000 of the costs related to this offering of which \$35,000 had been paid as of December 31, 2012.

Cash Flows

Our cash flows from operating, investing and financing activities for the years ended December 31, 2012, 2011 and 2010 are summarized below.

Cash Flows for the Year ended December 31, 2012

Net cash provided by operating activities for the year ended December 31, 2012 was approximately \$106.3 million, which consisted primarily of cash received from net written premiums less cash disbursed for operating expenses and losses and loss adjustment expenses. Net cash used in investing activities of \$1.2 million was primarily due to our business acquisitions completed in 2012 of \$8.2 million, the purchases of fixed-maturity and equity securities of \$16.5 million, and the purchases of \$2.8 million of property, equipment and other investments offset by the proceeds from sales of fixed-maturity and equity securities of \$10.7 million, proceeds from calls, repayments, and maturities of fixed-maturity securities of \$3.1 million and time deposit redemptions of \$12.4 million.

Net cash provided by financing activities totaled \$24.8 million, which was primarily due to \$20.1 million from the issuance of common stock, \$12.2 million related to the exercise of stock options and warrants and \$1.2 million excess tax benefit from stock options exercised offset by \$8.6 million in cash dividends paid.

Cash Flows for the Year ended December 31, 2011

Net cash provided by operating activities for the year ended December 31, 2011 was approximately \$56.0 million, which consisted primarily of cash received from net written premiums less cash disbursed for operating expenses and losses and loss adjustment expenses. Net cash used in investing activities of \$17.0 million was primarily due to our business acquisitions completed in 2011 of \$5.3 million, the purchase of \$3.3 million in property and equipment, and the purchases of fixed-maturity and equity securities of \$37.8 million offset by the proceeds from sales of fixed-maturity and equity securities of \$26.6 million, proceeds from calls, repayments, maturities of fixed-maturity securities of \$1.3 million, and time deposit redemptions of \$1.6 million. Net cash provided by financing activities totaled \$6.4 million, which was primarily due to \$11.3 million from the issuance of preferred stock and \$0.8 million related to the exercise of stock options offset by \$3.8 million in cash dividends paid and \$1.9 million used to repurchase our common shares.

Cash Flows for the Year ended December 31, 2010

Net cash provided by operating activities for the year ended December 31, 2010 was approximately \$16.1 million, which resulted primarily from the \$19.5 million of premiums collected from Citizens offset by \$10.6 million from reinsurance premiums prepaid in 2010 and \$7.2 million in cash received from net written premiums less cash disbursed for operating expenses and losses and loss adjustment expenses. Net cash used in investing activities was approximately \$0.2 million of which \$7.3 million was contributed from investment sales net of investment purchases offset by \$7.5 million used to purchase property and equipment. Net cash used in financing

activities totaled \$4.5 million, which was primarily due to \$3.6 million used to repurchase our shares and \$1.9 million used to pay dividends offset by approximately \$1.0 million from proceeds and tax benefits related to stock option exercises.

Investments

The main objective of our investment policy is to maximize our after-tax investment income with a minimum of risk given the current financial market. Our excess cash is invested primarily in money market accounts, time deposits (i.e. CDs with original maturities of more than twelve months), and available-for-sale investments.

At December 31, 2012, we had \$44.8 million of available-for-sale investments, which are carried at fair value. Changes in the general interest rate environment affect the returns available on new fixed-maturity investments. While a rising interest rate environment enhances the returns available on new investments, it reduces the market value of existing fixed-maturity investments and thus the availability of gains on disposition. A decline in interest rates reduces the returns available on new fixed-maturity investments but increases the market value of existing fixed-maturity investments, creating the opportunity for realized investment gains on disposition.

With the exception of large national banks, it is our current practice not to maintain cash deposits of more than an aggregate of \$5.5 million in any one bank at any time. From time to time, we may have in excess of \$5.5 million of cash designated for investment and on deposit at a single national brokerage firm. In the future, we may alter our investment policy to include or increase investments in federal, state and municipal obligations, preferred and common equity securities, real estate and real estate mortgages. Investments by HCPCI are limited by insurance law and regulations.

OFF-BALANCE SHEET ARRANGEMENTS

As of December 31, 2012 and 2011, we had no off-balance sheet arrangements as defined in Item 303(a)(4) of SEC Regulation S-K.

CONTRACTUAL OBLIGATIONS

The following table summarizes our contractual obligations as of December 31, 2012:

	Payment Due by Period (in thousands)				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
Operating lease ⁽¹⁾	\$1,372	139	265	292	676
Service agreement ⁽¹⁾	244	22	48	52	122
Total	<u>\$1,616</u>	<u>161</u>	<u>313</u>	<u>344</u>	<u>798</u>

- (1) On November 7, 2012, we entered into an agreement to lease 15,000 square feet of office space in Noida, India. The lease has an initial term of nine years commencing January 15, 2013 with monthly rental payments of approximately \$10,200 plus applicable service tax for the first year. Thereafter the monthly rental payment will increase by five percent every year. We are entitled to terminate the lease after the 36-month period following the commencement date. In connection with this lease, we signed a long-term contract with the landlord to receive maintenance and facility services. The agreement has the same initial term of nine years with monthly payments of approximately \$1,800 plus applicable service tax for the first year. Thereafter the monthly payment will increase by five percent every year. Liabilities were converted from India Rupee to U.S. dollars using the December 31, 2012 exchange rate.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We have prepared our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires us to make estimates and judgments to develop amounts reflected and disclosed in our financial statements. Material estimates that are particularly susceptible to significant change in the near term are related to our losses and loss adjustment expenses, which include amounts estimated for claims incurred but not yet reported. We base our estimates on various assumptions and actuarial data that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates.

We believe our accounting policies specific to premium revenue recognition, losses and loss adjustment expenses, reinsurance, deferred policy acquisition costs, deferred income taxes, and stock-based compensation expense involve our most significant judgments and estimates material to our consolidated financial statements.

Premium Revenue. Premium revenue is earned on a daily pro-rata basis over the term of the policies. Unearned premiums represent the portion of the premium related to the unexpired policy term.

Reserves for Losses and Loss Adjustment Expenses. We establish Reserves for the estimated total unpaid costs of losses including LAE. Reserves reflect management's best estimate of the total cost of (i) claims that have been incurred, but not yet paid, and (ii) claims that have been "incurred but not yet reported" ("IBNR"). Reserves established by us are not an exact calculation of our liability. Rather, loss reserves represent management's best estimate of our company's liability based on the application of actuarial techniques and other projection methodology and taking into consideration other facts and circumstances known at the balance sheet date. The process of establishing loss reserves is complex and necessarily imprecise, as it involves using judgment that is affected by many variables such as past loss experience, current claim trends and the prevailing social, economic and legal environments. The impact of both internal and external variables on ultimate loss and LAE costs is difficult to estimate. Our exposure is impacted by both the risk characteristics of the physical locations where we write policies, such as hurricane and tropical storm-related risks, as well as risks associated with varying social, judicial and legislative characteristics in Florida, the state in which we operate. In determining loss reserves, we give careful consideration to all available data and actuarial analyses, and this process involves significant judgment.

Reserves represent estimates of the ultimate unpaid cost of all losses incurred, including losses for claims that have not yet been reported to our insurance company. The amount of loss reserves for reported claims is based primarily upon a case-by-case evaluation of the kind of risk involved, knowledge of the circumstances surrounding each claim and the insurance policy provisions relating to the type of loss. The amounts of Reserves for unreported claims and LAE are determined using historical homeowners insurance information as adjusted to current conditions. Inflation is ordinarily implicitly provided for in the reserving function through analysis of costs, trends and reviews of historical reserving results over multiple years.

Reserves are closely monitored and are recalculated periodically using the most recent information on reported claims and a variety of actuarial techniques. Specifically, claims management personnel complete weekly and ongoing reviews of existing case reserves, new claims, changes to existing case reserves, and paid losses with respect to the current and prior years. As we develop historical data regarding paid and incurred losses, we use this data to develop expected ultimate loss and loss adjustment expense ratios. We then apply these expected loss and loss adjustment expense ratios to earned premium to derive a reserve level for our homeowners line of business. In connection with the determination of these reserves, we will also consider other specific factors such as recent weather-related losses, trends in historical paid losses, and legal and judicial trends regarding liability. Most of our business was assumed from Citizens and HomeWise. Therefore, we use the loss ratio method, among other methods, to project an ultimate loss expectation, and then the related loss history must be regularly evaluated and loss expectations updated, with the possibility of variability from the initial estimate of ultimate losses.

When a claim is reported to us, our claims personnel establish a “case reserve” for the estimated amount of the ultimate payment. This estimate reflects an informed judgment based upon general insurance reserving practices and on the experience and knowledge of the estimator. The individual estimating the reserve considers the nature and value of the specific claim, the severity of injury or damage, location, and the policy provisions relating to the type of loss. Case reserves are adjusted by us as more information becomes available. It is our policy to settle each claim as expeditiously as possible.

We maintain IBNR Reserves to provide for already incurred claims that have not yet been reported and subsequent development on reported claims. The IBNR reserve is determined by estimating our insurance company’s ultimate net liability for both reported and unreported claims and then subtracting the case reserves and payments made to date for reported claims.

Loss Reserve Estimation Methods. We apply the following general methods in projecting loss and LAE reserves:

- Reported loss development;
- Paid loss development;
- Loss ratio method; and
- Average outstanding and open claims.

The results of the reserve calculations using these methods were similar, and therefore, we relied on an average of the four methods.

Description of Ultimate Loss Estimation Methods. The reported loss development method relies on the assumption that, at any given state of maturity, ultimate losses can be predicted by multiplying cumulative reported losses (paid losses plus case reserves) by a cumulative development factor. The validity of the results of this method depends on the stability of claim reporting and settlement rates, as well as the consistency of case reserve levels. Case reserves do not have to be adequately stated for this method to be effective; they only need to have a fairly consistent level of adequacy at all stages of maturity. Because of our limited loss experience, we select loss development factors based on industry data found in current A.M. Best’s Aggregates and Averages – Property/Casualty – United States & Canada. We assume that our loss development patterns will be reasonably consistent with industry averages, and use the selected factors to project the ultimate losses.

The paid loss development method is mechanically identical to the reported loss development method described above. The paid method does not rely on case reserves or claim reporting patterns in making projections.

The validity of the results from using a loss development approach can be affected by many conditions, such as internal claim department processing changes, a shift between single and multiple claim payments, legal changes, or variations in our mix of business from year to year. Also, since the percentage of losses paid for immature years is often low, development factors are volatile. A small variation in the number of claims paid can have a leveraging effect that can lead to significant changes in estimated ultimate losses. Therefore, ultimate values for immature loss years are often based on alternative estimation techniques.

The loss ratio method used by us relies on the assumption that remaining unreported losses are a function of the total expected losses rather than a function of currently reported losses. The expected loss ratio is multiplied by earned premium to produce ultimate losses. Reported incurred losses are then subtracted from this estimate to produce expected unreported losses.

The loss ratio method is most useful as an alternative to other models for immature loss years. For these immature years, the amounts reported or paid may be small and unstable, and therefore, not predictive of future

development. Therefore, future development is assumed to follow an expected pattern that is supported by more stable historical data or by emerging trends. This method is also useful when changing reporting patterns or payment patterns distort the historical development of losses.

Finally, we employ the average outstanding and open claims method. We segregate our claims according to when they were assumed and conduct a detailed review in order to estimate average future development of open claims and average projected loss on IBNR claims. We combine this estimate with our open claims in order to derive an estimate of expected unreported losses. Paid losses are added to this estimate in order to derive an estimate of ultimate losses. This method is based on the assumption that future unreported claims and the average severity of open claims and unreported claims can be reasonably estimated from the experience available.

While the property and casualty industry has incurred substantial aggregate losses from claims related to asbestos-related illnesses, environmental remediation, product and mold, and other uncertain or environmental exposures, we have not experienced significant losses from these types of claims.

Currently, our estimated ultimate liability is calculated monthly using these principles and procedures applicable to the lines of business written. However, because the establishment of loss reserves is an inherently uncertain process, we cannot be certain that ultimate losses will not exceed the established loss reserves and have a material adverse effect on our results of operations and financial condition. Changes in estimates, or differences between estimates and amounts ultimately paid, are reflected in the operating results of the period during which such adjustments are made.

Our reported results, financial position and liquidity would be affected by likely changes in key assumptions that determine our net loss reserves. Management does not believe that any reasonably likely changes in the frequency of claims would affect our loss reserves. However, management believes that a reasonably likely increase or decrease in the severity of claims could impact our net loss reserves. The table below summarizes the effect on net loss reserves and equity in the event of reasonably likely changes in the severity of claims considered in establishing loss and loss adjustment expense reserves. The range of reasonably likely changes in the severity of our claims was established based on a review of changes in loss year development and applied to loss reserves as a whole. The selected range of changes does not indicate what could be the potential best or worst case or likely scenarios:

Year Ended December 31, 2012		
Change in Reserves	Reserves	Percentage change in equity, net of tax
-10.0%	37,051	2.06%
-7.5%	38,080	1.55%
-5.0%	39,110	1.03%
-2.5%	40,139	0.52%
Base	41,168	—
2.5%	42,197	-0.52%
5.0%	43,226	-1.03%
7.5%	44,256	-1.55%
10.0%	45,285	-2.06%

Reinsurance. In the normal course of business, we seek to reduce the loss that may arise from catastrophes or other events that cause unfavorable underwriting results by reinsuring certain levels of risk in various areas of exposure with other insurance enterprises or reinsurers. The Company contracts with a number of well-known and rated reinsurers to secure its annual reinsurance coverage, which becomes effective June 1st each year. We purchase reinsurance each year taking into consideration maximum projected losses and reinsurance market conditions. Amounts recoverable from reinsurers are estimated in a manner consistent with the reinsured policy.

Reinsurance premiums and reserves related to reinsured business are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts. Premiums ceded to reinsurers have been reported as a reduction of premium income.

Deferred policy acquisition costs. Deferred policy acquisition costs (“DAC”) for the year ended December 31, 2012 primarily represent commissions paid to outside agents at the time of collection of the policy premium, premium taxes, and commissions with respect to assumed reinsurance and are amortized over the life of the related policy in relation to the amount of gross premiums earned. In addition to the foregoing expenses, DAC for the year ended December 31, 2011 included certain salaries and other policy acquisition expenses, which were deferred pursuant to the accounting standard then in effect (see Accounting Standards Update No. 2010-26 under Note 2 – “Recent Accounting Pronouncements” to the consolidated financial statements). The method followed in computing DAC limits the amount of such deferred costs to their estimated realizable value, which gives effect to the gross premium earned, related investment income, unpaid losses and LAE and certain other costs expected to be incurred as the premium is earned.

DAC is reviewed to determine if it is recoverable from future income, including investment income. If such costs are determined to be unrecoverable, they are expensed at the time of determination. The amount of DAC considered recoverable could be reduced in the near term if the estimates of total revenues discussed above are reduced or permanently impaired as a result of the disposition of a line of business. The amount of amortization of DAC could be revised in the near term if any of the estimates discussed above are revised.

Income Taxes. We account for income taxes in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”), resulting in two components of income tax expense: current and deferred. Current income tax expense reflects taxes to be paid or refunded for the current period by applying the provisions of the enacted tax law to the taxable income or excess of deductions over revenues. We determine deferred income taxes using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is based on the tax effects of the differences between the book and tax bases of assets and liabilities, and enacted changes in tax rates and laws are recognized in the period in which they occur. Valuation allowances are provided against assets that are not likely to be realized, if any. We have elected to classify interest and penalties, if any, as income tax expense as permitted by current accounting standards.

Stock-Based Compensation. We account for our stock option and incentive plan under the fair value recognition provisions of U.S. GAAP which requires the measurement and recognition of compensation for all stock-based awards made to employees and directors including stock options and restricted stock issuances based on estimated fair values. We recognize stock-based compensation in the consolidated statements of income on a straight-line basis over the vesting period. We use the Black-Scholes option pricing model, which requires the following variables for input to calculate the fair value of each stock award on the option grant date: 1) expected volatility of our stock price, 2) the risk-free interest rate, 3) expected term of each award, 4) expected dividends, and 5) an expected forfeiture rate.

ITEM 7A – Quantitative and Qualitative Disclosures About Market Risk

Our investment portfolios at December 31, 2012 included fixed-maturity and equity securities, the purposes of which are not for trading or speculation. Our main objective is to maximize after-tax investment income and maintain sufficient liquidity to meet policyholder obligations while minimizing market risk which is the potential economic loss from adverse fluctuations in securities prices. We consider many factors including credit ratings, investment concentrations, regulatory requirements, anticipated fluctuation of interest rates, durations and market conditions in developing investment strategies. Investment securities are managed by investment companies and are overseen by the investment committee appointed by our board of directors. Our investment portfolios are primarily exposed to interest rate risk, credit risk and equity price risk. We classify our fixed-maturity and equity securities as available-for-sale and report any unrealized gains or losses, net of deferred income taxes, as a component of other comprehensive income within our stockholders’ equity. As such, any material temporary changes in their fair value can adversely impact the carrying value of our stockholders’ equity.

Interest Rate Risk

Our fixed-maturity securities are sensitive to potential losses resulting from unfavorable changes in interest rates. We manage the risk by analyzing anticipated movement in interest rates and considering our future capital needs.

The following table illustrates the impact of hypothetical changes in interest rates to the fair value of our fixed-maturity securities at December 31, 2012 (in thousands):

<u>Hypothetical Change in Interest Rates</u>	<u>Estimated Fair Value</u>	<u>Change in Estimated Fair Value</u>	<u>Percentage Increase (Decrease) in Estimated Fair Value</u>
300 basis point increase	\$31,768	\$(4,184)	(11.64)%
200 basis point increase	33,163	(2,789)	(7.76)%
100 basis point increase	34,558	(1,395)	(3.88)%
100 basis point decrease	37,282	1,329	3.70%
200 basis point decrease	38,295	2,342	6.51%
300 basis point decrease	38,980	3,027	8.42%

Credit Risk

Credit risk can expose us to potential losses arising principally from adverse changes in the financial condition of the issuers of our fixed-maturity securities. We mitigate the risk by investing in fixed-maturity securities that are rated “B” or higher and diversifying our investment portfolio to avoid concentrations in any single issuer or business sector.

The following table presents the composition of our fixed-maturity securities, by rating, at December 31, 2012 (in thousands):

<u>Comparable Rating</u>	<u>Amortized Cost</u>	<u>% of Total Amortized Cost</u>	<u>Estimated Fair Value</u>	<u>% of Total Estimated Fair Value</u>
AAA	\$ 9,695	29	\$10,659	30
AA1, AA2, AA3	5,785	17	6,183	17
A1, A2, A3	8,497	25	8,980	25
BBB1, BBB2, BBB3	8,260	25	8,885	25
BB1, BB2	1,199	4	1,246	3
Total	<u>\$33,436</u>	<u>100</u>	<u>\$35,953</u>	<u>100</u>

Equity Price Risk

Our equity investment portfolio at December 31, 2012 included common stocks, perpetual preferred stocks, mutual funds and exchange traded funds (“ETF”). We may incur potential losses due to adverse changes in equity security prices. We manage the risk primarily through industry and issuer diversification and asset allocation techniques.

The following table illustrates the composition of our equity securities at December 31, 2012 (in thousands):

	<u>Estimated Fair Value</u>	<u>% of Total Estimated Fair Value</u>
Stocks by sector:		
Financial	\$1,909	22
Energy	1,188	13
Consumer	516	6
Other ⁽¹⁾	458	5
	<u>4,071</u>	<u>46</u>
Mutual funds and ETF by type:		
Debt	4,576	52
Equity	229	2
	<u>4,805</u>	<u>54</u>
Total	<u>\$8,876</u>	<u>100</u>

(1) Represents an aggregate of less than 5% sectors.

Foreign Currency Exchange Risk

At December 31, 2012, we did not have any material exposure to foreign currency related risk.

Report of Independent Registered Public Accounting Firm

Board of Directors and Stockholders
Homeowners Choice, Inc.
Tampa, Florida:

We have audited the accompanying consolidated balance sheets of Homeowners Choice, Inc. and Subsidiaries (the “Company”) as of December 31, 2012 and 2011, and the related consolidated statements of income, comprehensive income, stockholders’ equity, and cash flows for each of the years in the three-year period ended December 31, 2012. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company at December 31, 2012 and 2011, and the consolidated results of its operations, its comprehensive income and its cash flows for each of the years in the three-year period ended December 31, 2012, in conformity with U.S. generally accepted accounting principles.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company’s internal control over financial reporting as of December 31, 2012, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 14, 2013 expressed an unqualified opinion thereon.

March 14, 2013

Report of Independent Registered Public Accounting Firm on Internal Control

Board of Directors and Stockholders
Homeowners Choice, Inc.,
Tampa, Florida:

We have audited Homeowners Choice, Inc. and Subsidiaries (the “Company”) internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying management assessment report. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of December 31, 2012 and 2011 and for each of the years in the three-year period ended December 31, 2012 of the Company and our report dated March 14, 2013 expressed an unqualified opinion on those financial statements.

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Note 1 – Summary of Significant Accounting Policies

The accompanying consolidated financial statements of Homeowners Choice, Inc. (“HCI” or the “Company”) include the accounts of HCI, Homeowners Choice Property & Casualty Insurance Company, Inc. (“HCPCI”), HCI’s property and casualty insurance company, and certain other insurance and non-insurance subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Through its subsidiaries, the Company is primarily engaged in the property and casualty insurance business. HCPCI is authorized to underwrite homeowners’ property and casualty insurance in the State of Florida. HCPCI’s operations are supported by the following HCI subsidiaries:

- Homeowners Choice Managers, Inc. (“HCM”) – acts as managing general agent and provides marketing, underwriting, claims settlement, accounting and financial services to HCPCI;
- Southern Administration, Inc. – provides policy administration services to HCPCI; and
- Claddaugh Casualty Insurance Company, Ltd. – participates in the reinsurance program to HCPCI.

In addition, while not material to the consolidated financial statements, HCI has various subsidiaries primarily engaged in the businesses of owning and leasing real estate, operating marina facilities and one restaurant and developing software.

Prior to November 2011, nearly all of the Company’s customers were obtained through participation in a “take-out program” with Citizens Property Insurance Corporation (“Citizens”), a Florida state supported insurer. The customers were obtained in nine separate assumption transactions which took place from July 2007 through November 2012. The Company is required to offer renewals on the policies acquired for a period of three years subsequent to the initial expiration of the assumed policies. During the first full year after assumption, such renewals are required to have rates that are equivalent to or less than the rates charged by Citizens. In November 2011, the Company completed an assumption transaction with HomeWise Insurance Company, Inc. (“HomeWise”) through which the Company assumed the Florida policies of HomeWise. Substantially all of the Company’s premium revenue since inception comes from these assumptions.

Acquisition Accounting. The Company accounts for business combinations using the acquisition method, which requires an allocation of the purchase price of an acquired entity to the assets acquired and liabilities assumed based on their estimated fair values at the date of acquisition. Goodwill represents the excess of the purchase price over the net tangible and intangible assets acquired. In the event the net assets acquired exceed the purchase price, the Company will recognize a gain on bargain purchase.

Use of Estimates. The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ materially from these estimates. Material estimates that are particularly susceptible to significant change in the near term are related to losses and loss adjustment expenses.

Cash and Cash Equivalents. The Company considers all short-term highly liquid investments with original maturities of less than three months to be cash and cash equivalents. At December 31, 2012 and 2011, cash and cash equivalents consist of cash on deposit with financial institutions and securities brokerage firms.

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued

Note 1 – Summary of Significant Accounting Policies, continued

Time Deposits. Time deposits consisted of certificates of deposit with original maturities ranging from one to five years.

Investments. Investments consist of fixed-maturity and equity securities. Fixed-maturity securities include debt securities and redeemable preferred stock. Securities may be classified as either trading, held to maturity or available-for-sale. The Company's available-for-sale securities are carried at fair value. Temporary changes in the fair value of available-for-sale securities are excluded from income and reported in stockholders' equity as a component of accumulated other comprehensive income, net of deferred income taxes. Realized investment gains and losses from sales are recorded on the trade date and are determined using the specific identification method. Investment income is recognized as earned and discounts or premiums arising from the purchase of debt securities are recognized in investment income using the interest method over the estimated remaining term of the security. Gains and losses from call redemptions and repayments are charged to investment income.

The Company reviews all securities for other-than-temporary impairment ("OTTI") at least on a quarterly basis, and more frequently when economic or market conditions warrant such review. When the fair value of any investment is lower than its cost, an assessment is made to determine whether the decline is temporary or other-than-temporary. If the decline is determined to be other-than-temporary, the investment is written down to fair value and an impairment charge is recognized in income in the period in which the Company makes such determination. For a debt security that the Company does not intend to sell and it is not more likely than not that the Company will be required to sell before recovery of its amortized cost, only the credit loss component of the impairment is recognized in income, while the impairment related to all other factors is recognized in other comprehensive income. The Company considers various factors in determining whether an individual security is other-than-temporarily impaired (see Note 3 – "Investments").

Other investments consist primarily of real estate and the related assets purchased during 2011 and 2012 (see Note 3 – "Investments" and Note 5 – "Business Acquisitions"). Real estate and the related depreciable assets are carried at cost, net of accumulated depreciation, which is allocated over the estimated useful life of the asset using the straight-line method of depreciation. Real estate is evaluated for impairment when events or circumstances indicate the carrying value of the real estate may not be recoverable.

Deferred policy acquisition costs. Deferred policy acquisition costs ("DAC") for the year ended December 31, 2012 primarily represent commissions paid to outside agents at the time of collection of the policy premium, premium taxes, and commissions with respect to assumed reinsurance and are amortized over the life of the related policy in relation to the amount of gross premiums earned.

In addition to the foregoing expenses, DAC for the year ended December 31, 2011 included certain salaries and other policy acquisition expenses, which were deferred pursuant to the accounting standard then in effect (see Accounting Standards Update No. 2010-26 under Note 2 – "Recent Accounting Pronouncements" to the consolidated financial statements). The method followed in computing DAC limits the amount of such deferred costs to their estimated realizable value, which gives effect to the gross premium earned, related investment income, unpaid losses and LAE and certain other costs expected to be incurred as the premium is earned.

DAC is reviewed to determine if it is recoverable from future income, including investment income. If such costs are determined to be unrecoverable, they are expensed at the time of determination. The amount of DAC considered recoverable could be reduced in the near term if the estimates of total revenues discussed above are

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements, Continued

Note 1 – Summary of Significant Accounting Policies, continued

reduced or permanently impaired as a result of the disposition of a line of business. The amount of amortization of DAC could be revised in the near term if any of the estimates discussed above are revised.

Property and Equipment. Property and equipment is stated at cost less accumulated depreciation and amortization. Depreciation is calculated on a straight-line basis over the estimated useful lives as follows: building 39 years; computer hardware and software 3 years; office and furniture equipment 3 to 7 years. Leasehold improvements are amortized over the shorter of the lease term or the asset's useful life. Expenditures for improvements are capitalized to the property accounts. Replacements and maintenance and repairs that do not improve or extend the life of the respective assets are expensed as incurred.

Impairment of Long-Lived Assets. Long-lived assets, such as property and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. The Company assesses the recoverability of long-lived assets by determining whether the assets can be recovered from undiscounted future cash flows. Recoverability of long-lived assets is dependent upon, among other things, the Company's ability to maintain profitability, so as to be able to meet its obligations when they become due. In the opinion of management, based upon current information and projections, long-lived assets will be recovered over the period of benefit.

Losses and Loss Adjustment Expenses. Reserves for losses and loss adjustment expenses ("LAE") are determined by establishing liabilities in amounts estimated to cover incurred losses and LAE. Such reserves are determined based on the assessment of claims reported and the development of pending claims. These reserves are based on individual case estimates for the reported losses and LAE and estimates of such amounts that are incurred but not reported. Changes in the estimated liability are charged or credited to income as the losses and LAE are settled.

The estimates of unpaid losses and LAE are subject to trends in claim severity and frequency and are continually reviewed. As part of the process, the Company reviews historical data and considers various factors, including known and anticipated regulatory and legal developments, changes in social attitudes, inflation and economic conditions. As experience develops and other data becomes available, these estimates are revised, as required, resulting in increases or decreases to the existing unpaid losses and LAE. Adjustments are reflected in the results of operations in the period in which they are made and the liabilities may deviate substantially from prior estimates.

Reinsurance. In the normal course of business, the Company seeks to reduce the loss that may arise from catastrophes or other events that cause unfavorable underwriting results by reinsuring certain levels of risk in various areas of exposure with other insurance enterprises or reinsurers. The Company contracts with a number of well-known and rated reinsurers to secure its annual reinsurance coverage, which becomes effective June 1st each year. We purchase reinsurance each year taking into consideration maximum projected losses and reinsurance market conditions. Amounts recoverable from reinsurers are estimated in a manner consistent with the reinsured policy. Reinsurance premiums and reserves related to reinsured business are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts. Premiums ceded to other companies have been reported as a reduction of premium income. Prepaid reinsurance premiums represent the unexpired portion of premiums ceded to reinsurers.

Premium Revenue. Premium revenue is earned on a daily pro-rata basis over the term of the policies. Unearned premiums represent the portion of the premium related to the unexpired policy term.

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued

Note 1 – Summary of Significant Accounting Policies, continued

Policy Fees. Policy fees represent nonrefundable fees for insurance coverage, which are intended to reimburse a portion of the costs incurred to underwrite the policy. The fees and related costs are recognized when the policy is written.

Premium-Based Assessments. From time to time, the Company may be assessed by the state guaranty association. The assessments are intended to be used for the payment of covered claims of insolvent insurance entities. The assessments are generally based on a percentage of premiums written during or following the year of insolvency. Liabilities are recognized when the assessments are probable to be imposed on the premiums on which they are expected to be based and the amounts can be reasonably estimated. The Company is permitted by Florida statutes to recover the entire amount of assessments from in-force and future policyholders through policy surcharges. U.S. GAAP provides that the Company should record an asset based on the amount of written or obligated-to-write premiums and limited to the amounts recoverable over the life of the in-force policies.

Foreign Currency. The functional currency of the Company's Indian subsidiary is the U.S. dollar. As such, the monetary assets and liabilities of this subsidiary are remeasured into U.S. dollars at the exchange rate in effect on the balance sheet date. Non-monetary assets and liabilities are remeasured using historical rates. Expenses recorded in the local currency are remeasured at the prevailing exchange rate. Exchange gains and losses resulting from these remeasurements are included in the results of operations.

Income Taxes. The Company accounts for income taxes in accordance with U.S. GAAP, resulting in two components of income tax expense: current and deferred. Current income tax expense reflects taxes to be paid or refunded for the current period by applying the provisions of the enacted tax law to the taxable income or excess of deductions over revenues. The Company determines deferred income taxes using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is based on the tax effects of the differences between the book and tax bases of assets and liabilities, and enacted changes in tax rates and laws are recognized in the period in which they occur.

Deferred income tax expense results from changes in deferred tax assets and liabilities between periods. Deferred tax assets are recognized if it is more likely than not, based on the technical merits, that the tax position will be realized or sustained upon examination. The term "more likely than not" means a likelihood of more than fifty percent; the terms "examined" and "upon examination" also include resolution of the related appeals or litigation processes, if any. A tax position that meets the more-likely-than-not recognition threshold is initially and subsequently measured as the largest amount of tax benefit that has a greater than fifty percent likelihood of being realized upon settlement with a taxing authority that has full knowledge of all relevant information. The determination of whether or not a tax position has met the more-likely-than-not recognition threshold considers the facts, circumstances, and information available at the reporting date and is subject to management's judgment. Deferred tax assets are reduced by a valuation allowance if, based on the weight of evidence available, it is more likely than not that some portion or all of a deferred tax asset will not be realized. As of December 31, 2012, management is not aware of any uncertain tax positions that would have a material effect on the Company's consolidated financial statements.

Fair Value of Financial Instruments. The carrying amounts for the Company's cash and cash equivalents approximate their fair values at December 31, 2012 and 2011. Fair value for securities are based on the framework for measuring fair value established by U.S. GAAP (see Note 3 – "Investments").

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements, Continued

Note 1 – Summary of Significant Accounting Policies, continued

Stock-Based Compensation. The Company accounts for stock-based compensation under the fair value recognition provisions of U.S. GAAP which requires the measurement and recognition of compensation for all stock-based awards made to employees and directors including stock options and restricted stock issuances based on estimated fair values. In accordance with U.S. GAAP, the fair value of stock-based awards is amortized over the requisite service period, which is defined as the period during which an employee is required to provide service in exchange for an award. The Company uses a straight-line attribution method for all grants that include only a service condition. The Company's restricted stock awards include both service and market conditions. As a result, certain restricted stock grants are expensed over the derived service period for each separately vesting tranche.

Basic and diluted earnings per common share. Basic earnings per common share is computed by dividing net income attributable to common stockholders by the weighted-average number of common shares outstanding for the period. U.S. GAAP requires the inclusion of restricted stock as participating securities since holders of the Company's restricted stock have the right to share in dividends, if declared, equally with common stockholders. During periods of net income, participating securities are allocated a proportional share of net income determined by dividing total weighted-average participating securities by the sum of total weighted-average common shares and participating securities (the "two-class method"). Diluted earnings per common share reflect the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted as well as participating equities. Potentially dilutive securities at December 31, 2012 consisted of stock options and the 7.0% Series A cumulative convertible preferred stock issued March 25, 2011 (see Note 11 – Stockholders' Equity).

Reclassifications. Certain reclassifications of prior year amounts have been made to conform to the current year presentation.

Note 2 – Recent Accounting Pronouncements

Accounting Standards Update No. 2013-02. In February 2013, the FASB issued Accounting Standards Update No. 2013-02 ("ASU 2013-02"), Comprehensive Income (Topic 220), Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. ASU 2013-02 does not change the current requirements for reporting net income or other comprehensive income in the financial statements. However, the amendments require an entity to provide information about the amounts reclassified out of accumulated other comprehensive by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required that provide additional detail about those amounts. ASU 2013-02 is effective prospectively for public entities for reporting periods beginning after December 15, 2012. Early adoption is permitted. The adoption of this guidance is not expected to have a material effect on the Company's consolidated financial statements.

Accounting Standards Update No. 2013-01. In January 2013, the FASB issued Accounting Standards Update No. 2013-01 ("ASU 2013-01"), Balance Sheet (Topic 210), Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities. ASU 2013-01 clarifies that the scope of Update 2011-11 applies to derivatives accounted for in accordance with Topic 815, Derivatives and Hedging, including bifurcated embedded

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued

Note 2 – Recent Accounting Pronouncements, continued

derivatives, repurchase agreements and reverse repurchase agreements, and securities borrowing and securities lending transactions that are either offset in accordance with Section 210-20-45 or Section 815-10-45 or subject to an enforceable master netting arrangement or similar agreement. ASU 2013-01 is effective for fiscal years beginning on or after January 1, 2013, and interim periods within those annual periods. An entity should provide the required disclosures retrospectively for all comparative periods presented. The adoption of this guidance is not expected to have a material effect on the Company's consolidated financial statements.

Accounting Standards Update No. 2012-02. In July 2012, the FASB issued Accounting Standard Update No. 2012-12 ("ASU 2012-12"), Intangibles – Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment. The objective of ASU 2012-02 is to reduce the cost and complexity of performing an impairment test for indefinite-lived intangible assets by simplifying how an entity tests those assets for impairment and to improve consistency in impairment testing guidance among long-lived asset categories. The amendments permit an entity first to assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test in accordance with Subtopic 350-30, Intangibles – Goodwill and Other – General intangibles Other than Goodwill. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. The amendments in ASU 2012-12 are effective for annual and interim impairment tests performed for the fiscal years beginning after September 15, 2012. Early adoption is permitted. The adoption of this guidance did not have a material effect on the Company's consolidated financial statements.

Accounting Standards Update No. 2011-11. In December 2011, the FASB issued Accounting Standards Update No. 2011-11 ("ASU 2011-11"), Balance Sheet (Topic 210), Disclosures about Offsetting Assets and Liabilities. ASU 2011-11 requires entities to disclose information about offsetting and related arrangements of financial and derivative instruments. ASU 2011-11 is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. An entity should provide the disclosures required by ASU 2011-11 retrospectively for all comparative periods presented. The adoption of this guidance is not expected to have a material effect on the Company's consolidated financial statements.

Accounting Standards Update No. 2010-26. In October 2010, the FASB issued Accounting Standards Update No. 2010-26 ("ASU 2010-26"), Financial Services – Insurance (ASC Topic 944), Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts. The objective of the amendments in ASU 2010-26 is to address diversity in practice regarding the interpretation of which costs relating to the acquisition of new or renewal insurance contracts qualify for deferral. The amendments in ASU 2010-26 specify which costs should be capitalized. The amendments in ASU 2010-26 are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2011 and can be applied prospectively upon adoption. Retrospective or prospective application is permitted. Early adoption is permitted, but only at the beginning of an entity's annual reporting period. The Company adopted ASU 2010-26 effective January 1, 2012 on a prospective basis. As such, the Company recognized additional amortization expense of \$1.2 million with a corresponding decrease in deferred acquisition costs as of the date of adoption. This one-time adjustment reduced our net income for the year ended December 31, 2012 by approximately \$741,000, or \$0.08 earnings per diluted common share. In addition, certain direct marketing, compensation, and other administrative costs are no longer deferred. Rather, such costs are expensed as incurred beginning January 1, 2012.

<i>Year ended December 31, 2010</i>			
Fixed-maturity securities	\$29,116	1,828	(17)
Equity securities*	\$ 4,515	369	(177)

* Amounts reported for the year ended December 31, 2011 and 2010 include the gross realized gains and losses from equity option contracts. During the years ended December 31, 2011 and 2010, the Company entered into equity contracts for exchange traded call and put options to meet certain investment objectives. With respect to these option contracts, the Company received net proceeds of \$89,000 and \$391,000, respectively, and realized gains of \$49,000 and \$327,000, respectively, during the years ended December 31, 2011 and 2010. Such gains are included in the realized investment gains in the Consolidated Statements of Income. There were no open option contracts at December 31, 2011 and 2010.

Other-than-temporary Impairment (“OTTI”)

The Company regularly reviews its individual investment securities for OTTI. The Company considers various factors in determining whether each individual security is other-than-temporarily impaired, including:

- the financial condition and near-term prospects of the issuer, including any specific events that may affect its operations or income;
- the length of time and the extent to which the market value of the security has been below its cost or amortized cost;
- general market conditions and industry or sector specific factors;
- nonpayment by the issuer of its contractually obligated interest and principal payments; and
- the Company’s intent and ability to hold the investment for a period of time sufficient to allow for the recovery of costs.

	<u>Less Than Twelve Months</u>		<u>Twelve Months or Greater</u>		<u>Total</u>	
	<u>Gross Unrealized Loss</u>	<u>Estimated Fair Value</u>	<u>Gross Unrealized Loss</u>	<u>Estimated Fair Value</u>	<u>Gross Unrealized Loss</u>	<u>Estimated Fair Value</u>
As of December 31, 2011						
<i>Fixed-maturity securities</i>						
Corporate bonds	\$(417)	5,112	—	—	(417)	5,112
States, municipalities and political subdivisions	(3)	2,449	—	—	(3)	2,449
Commercial mortgage-backed securities	(14)	612	—	—	(14)	612
Redeemable preferred stock	(10)	232	—	—	(10)	232
Total fixed-maturity securities	(444)	8,405	—	—	(444)	8,405
<i>Equity securities</i>	(191)	2,464	(89)	87	(280)	2,551
Total available-for-sale securities	<u>\$(635)</u>	<u>10,869</u>	<u>(89)</u>	<u>87</u>	<u>(724)</u>	<u>10,956</u>

The Company believes there were no fundamental issues such as credit losses or other factors with respect to any of its available-for-sale securities. The unrealized losses on investments in fixed-maturity securities were caused by interest rate changes. It is expected that the securities would not be settled at a price less than the par value of the investments. In determining whether equity securities are other than temporarily impaired, the Company considers its intent and ability to hold a security for a period of time sufficient to allow for the recovery of cost. Because the decline in fair value is attributable to changes in interest rates or market conditions and not credit quality, and because the Company has the ability and intent to hold its available-for-sale investments until a market price recovery or maturity, the Company does not consider any of its investments to be other-than-temporarily impaired at December 31, 2012 and 2011.

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements, Continued

Note 3 – Investments, continued

Other Investments

Other investments consist primarily of real estate and the related assets and operations of the marina acquired in 2011 and the real estate and related assets of the marina and restaurant facilities acquired in April 2012 (see Note 5 – Business Acquisitions). Operating activities related to the Company’s real estate investments include leasing of office and retail space to tenants, wet and dry boat storage, a restaurant, and fuel services with respect to marina clients and recreational boaters.

Other investments consist of the following as of December 31, 2012 and 2011 (in thousands):

	December 31,	
	2012	2011
Land	\$10,993	4,438
Land improvements	1,326	283
Building	2,869	1,418
Other	1,238	404
	16,426	6,543
Total, at cost		
Less: accumulated depreciation and amortization	(339)	(60)
Other investments	\$16,087	6,483

Depreciation and amortization expense under other investments was \$279,000 and \$60,000, respectively, for the years ended December 31, 2012 and 2011.

Net investment income, by source, is summarized as follows (in thousands):

	Years Ended December 31,		
	2012	2011	2010
Available-for-sale securities	\$ 1,806	1,494	1,112
Time deposits	357	538	530
Other investments	(1,334)	(96)	—
Cash and cash equivalents	151	125	226
Short-term investments	—	—	94
	\$ 980	2,061	1,962

At December 31, 2012, deposits at two national banks totaled \$208.9 million, representing 90.7% of the Company’s cash and cash equivalents. In addition, at December 31, 2011, cash and cash equivalents included \$62.8 million on deposit at one national bank. At December 31, 2012 and 2011, the Company also had an aggregate of \$23.0 million and \$18.0 million, respectively, in money market funds at two custodial firms.

Note 4 – Fair Value Measurements

The Company records and discloses certain financial assets at their estimated fair value. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets.
- Level 2 – Other inputs that are observable for the asset, either directly or indirectly.
- Level 3 – Inputs that are unobservable.

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued

Note 4 – Fair Value Measurements, continued

Cash and cash equivalents:

Cash and cash equivalents primarily consist of money market funds. Their carrying value approximates fair value due to the short maturity and high liquidity of these funds.

Available-for-sale securities:

Estimated fair values of the Company's available-for-sale securities are determined in accordance with U.S. GAAP, using valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Fair values are generally measured using quoted prices in active markets for identical securities or other inputs that are observable either directly or indirectly, such as quoted prices for similar securities. In those instances where observable inputs are not available, fair values are measured using unobservable inputs. Unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the security and are developed based on the best information available in the circumstances. Fair value estimates derived from unobservable inputs are significantly affected by the assumptions used, including the discount rates and the estimated amounts and timing of future cash flows. The derived fair value estimates cannot be substantiated by comparison to independent markets and are not necessarily indicative of the amounts that would be realized in a current market exchange.

The estimated fair values for securities that do not trade on a daily basis are determined by management, utilizing prices obtained from an independent pricing service and information provided by brokers. Management reviews the assumptions and methods utilized by the pricing service and then compares the relevant data and pricing to broker-provided data. The Company gains assurance of the overall reasonableness and consistent application of the assumptions and methodologies and compliance with accounting standards for fair value determination through ongoing monitoring of the reported fair values.

Time deposits:

Time deposits consisted of certificates of deposit. Their carrying value approximated fair value due to the short maturity of these investments.

Total	\$129,065	11,139	12,427	152,631

Assets Measured at Estimated Fair Value on a Nonrecurring Basis:

The Company used a discounted cash flow method which relies on Level 3 inputs in valuing goodwill at November 30, 2012. The Company did not identify the existence of goodwill and, as a result, goodwill was eliminated resulting in an impairment loss of \$161,000 for the year ended December 31, 2012.

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued

Note 4 – Fair Value Measurements, continued

There were no transfers between Level 1, 2 or 3 during the years ended December 31, 2012 and 2011.

With respect to the Company’s business acquisitions completed in 2012 and 2011 (see Note 5 – “Business Acquisitions”), all assets acquired, aside from cash which was valued based on Level 1 measurements, and liabilities assumed were valued based on Level 3 measurements. Property, plant and equipment acquired in April 2012 was valued based on an external appraisal using the sales comparison approach and other unobservable inputs. The carrying amounts of all other acquired assets and assumed liabilities approximated their fair values at the acquisition date. Property, plant and equipment related to the April 2011 acquisition was valued based on an external appraisal using the sales comparison approach and other unobservable inputs. The environmental liability was valued based on third party estimates to complete the site assessment and remediation plan. The November 2011 acquisition was valued using the market approach and other unobservable inputs. The carrying amounts of all other assets and liabilities approximated their fair values at the acquisition date.

Note 5 – Business Acquisitions

The Company completed three acquisitions during the years ended December 31, 2012 and 2011.

2012 Acquisition

Effective April 2, 2012, the Company, through its subsidiary, HCI Holdings LLC, acquired the assets and operations of John’s Pass Marina, Inc. and Rice Family Holdings LLLP. The real estate consists primarily of ten acres of waterfront property and land improvements, which include a waterfront restaurant and a marina facility purchased for approximately \$8.2 million. Operating activities at acquisition include the restaurant as well as wet boat storage for approximately 13 clients, and fuel services with respect to marina clients and recreational boaters. The Treasure Island, Florida real estate and operations were acquired to further strengthen and diversify the Company’s investment portfolio.

The fair value of the net assets acquired was approximately \$8.3 million, which exceeded the \$8.2 million purchase price. As a result, the Company recognized a gain on bargain purchase in the amount of \$179,000 (\$119,000 net of tax), which is included in operations for the year ended December 31, 2012. The recorded gain is subject to adjustment as the Company will continue to evaluate the purchase price allocation during the measurement period. The following table summarizes the Company’s preliminary allocation of the net consideration paid to the fair value of the assets acquired, identifiable intangible assets acquired and liabilities assumed at April 2, 2012 (in thousands):

Property, plant and equipment	\$8,280
Other assets	56
Cash	9
Deferred tax liability	<u>(60)</u>
Fair value of net assets acquired	8,285
Gain on bargain purchase, net of tax of \$60	<u>(119)</u>
Cash consideration paid	<u><u>\$8,166</u></u>

For the year ended December 31, 2012, the effects of the acquisition was not material to the Company’s consolidated financial statements and basic and diluted earnings per share and, as such, pro forma information

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements, Continued

Note 5 – Business Acquisitions, continued

has not been presented. The acquired assets are included in other investments of the consolidated balance sheet. For the year ended December 31, 2012, the acquired business contributed approximately \$4.5 million in revenues and \$698,000 of net loss inclusive of the net gain on bargain purchase.

2011 Acquisition

Effective April 20, 2011, the Company, through its subsidiary, TV Investment Holdings LLC, acquired the assets and operations of Tierra Verde Marina Holdings (“TVMH”). The real estate consists primarily of land, land improvements, retail buildings, and a marina facility. Operating activities at acquisition include leasing of office and retail space to 11 tenants, wet and dry boat storage for approximately 150 clients, and fuel services with respect to marina clients and other recreational boaters. The Tierra Verde, Florida real estate and operations were purchased for \$5.1 million through a foreclosure sale conducted by the Pinellas County Clerk of the Circuit Court. The Company’s primary reason for the acquisition was to strengthen its investment portfolio through diversification and quality of assets owned.

The fair value of the net assets acquired was approximately \$5.7 million, which exceeded the \$5.1 million purchase price. As a result, the Company recognized a gain on bargain purchase in the amount of \$936,000 (\$575,000 net of tax), which is included in operations for the year ended December 31, 2011. There were no intangibles acquired with respect to this acquisition. The acquired assets are included in other investments of the consolidated balance sheet.

Effective November 18, 2011, the Company, through its subsidiary, HCI Technical Resources Inc., acquired Unthink Technologies Private Ltd. (“Unthink”), a software development company located in India, for \$199,000 in cash. The fair value of the net assets acquired was \$38,000. The Company recorded \$161,000 of goodwill in connection with this acquisition. The goodwill, which is attributable to the workforce of the acquired business, was not deductible for tax purposes. Management believes this acquisition will provide the Company with additional system design expertise that strengthens the Company’s ability to develop, enhance and maintain software applications for our insurance operations.

The following table summarizes the Company’s allocation of the net consideration paid to the fair value of the assets acquired and liabilities assumed at April 20, 2011 for the acquisition of TVMH and at November 18, 2011 for the acquisition of Unthink (in thousands):

	<u>TVMH</u>	<u>Unthink</u>	<u>Total</u>
Property, plant and equipment	\$6,338	66	6,404
Other assets	132	15	147

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements, Continued

Note 5 – Business Acquisitions, continued

For the year ended December 31, 2011, the effects of the acquisitions were not material to the Company's consolidated financial statements and basic and diluted earnings per share and, as such, pro forma information has not been presented.

For the year ended December 31, 2011, the acquired businesses contributed approximately \$1.9 million in revenues and \$0.4 million of net income inclusive of the net gain on bargain purchase. Based on an impairment test performed in November 2012, the Company eliminated the entire \$161,000 of goodwill.

Note 6 – Property and Equipment, net

Property and equipment, net consists of the following (in thousands):

	December 31,	
	2012	2011
Land	\$ 1,241	1,241
Building	5,955	5,883
Computer hardware and software	1,089	729
Office and furniture and equipment	1,131	778
Tenant and leasehold improvements	2,767	2,418
Other	251	184
Total, at cost	12,434	11,233
Less: accumulated depreciation and amortization	(1,581)	(734)
Property and equipment, net	<u>\$10,853</u>	<u>10,499</u>

Depreciation and amortization expense under property and equipment was \$848,000, \$466,000 and \$178,000, respectively, for the years ended December 31, 2012, 2011 and 2010.

Note 7 – Reinsurance

The Company cedes a portion of its homeowners insurance exposure to other entities under reinsurance agreements called catastrophe excess of loss reinsurance treaties. The Company remains liable with respect to claims payments in the event that any of the reinsurers are unable to meet their obligations under the reinsurance agreements. The Company evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic regions, activities or economic characteristics of the reinsurers to minimize its exposure to significant losses from reinsurer insolvencies. The Company contracts with a number of well-known and rated reinsurers to secure its annual reinsurance coverage, which becomes effective June 1st each year. We purchase reinsurance each year taking into consideration maximum projected losses and reinsurance market conditions.

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued

Note 7 – Reinsurance, continued

The impact of the catastrophe excess of loss reinsurance treaties on premiums written and earned is as follows (in thousands):

	<u>Years Ended December 31,</u>		
	<u>2012</u>	<u>2011</u>	<u>2010</u>
Premiums Written:			
Direct	\$205,839	125,145	114,599
Assumed	<u>73,340</u>	<u>62,104</u>	<u>1,683</u>
Gross written	279,179	187,249	116,282
Ceded	<u>(75,939)</u>	<u>(55,525)</u>	<u>(57,322)</u>
Net premiums written	<u>\$203,240</u>	<u>131,724</u>	<u>58,960</u>
Premiums Earned:			
Direct	\$168,937	119,756	104,621
Assumed	<u>64,670</u>	<u>23,850</u>	<u>15,136</u>
Gross earned	233,607	143,606	119,757
Ceded	<u>(75,939)</u>	<u>(55,525)</u>	<u>(57,322)</u>
Net premiums earned	<u>\$157,668</u>	<u>88,081</u>	<u>62,435</u>

During the years ended December 31, 2012, 2011 and 2010, there were no recoveries pertaining to reinsurance contracts that were deducted from losses incurred. Prepaid reinsurance premiums related to 31 reinsurers at December 31, 2012 and 18 reinsurers at December 31, 2011, respectively. There were no amounts receivable with respect to reinsurers at December 31, 2012 and 2011. Thus, there were no concentrations of credit risk associated with reinsurance receivables and prepaid reinsurance premiums as of December 31, 2012 and 2011. The percentages of assumed premiums earned to net premiums earned for the years ended December 31, 2012, 2011 and 2010 were 41.0%, 27.1% and 24.2%, respectively.

Note 8 – Losses and Loss Adjustment Expenses

The liability for losses and loss adjustment expenses (“LAE”) is determined on an individual case basis for all claims reported. The liability also includes amounts for unallocated expenses, anticipated future claim development and losses incurred, but not reported.

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued

Note 8 – Losses and Loss Adjustment Expenses, continued

Activity in the liability for unpaid losses and LAE is summarized as follows (in thousands):

	<u>Years Ended December 31,</u>		
	<u>2012</u>	<u>2011</u>	<u>2010</u>
Balance, beginning of year	\$ 27,424	22,146	19,178
Incurred related to:			
Current year	66,425	43,613	38,446
Prior years	(115)	4,630	(779)
Total incurred	<u>66,310</u>	<u>48,243</u>	<u>37,667</u>
Paid related to:			
Current year	(36,914)	(26,132)	(24,218)
Prior years	(15,652)	(16,833)	(10,481)
Total paid	<u>(52,566)</u>	<u>(42,965)</u>	<u>(34,699)</u>
Balance, end of year	<u>\$ 41,168</u>	<u>27,424</u>	<u>22,146</u>

The significant increase from 2011 to 2012 is primarily due to the increase in policy base as a result of the HomeWise assumption in November 2011 and the Citizens assumption in November 2012.

The Company writes insurance in the state of Florida, which could be exposed to hurricanes or other natural catastrophes. Although the occurrence of a major catastrophe could have a significant effect on our monthly or quarterly results, the Company believes that such an event would not be so material as to disrupt the overall normal operations of the Company. However, the Company is unable to predict the frequency or severity of any such events that may occur in the near term or thereafter.

Note 9 – Income Taxes

A summary of income tax expense is as follows (in thousands):

	<u>Years Ended December 31,</u>		
	<u>2012</u>	<u>2011</u>	<u>2010</u>

Income taxes	<u>\$19,423</u>	<u>6,441</u>	<u>3,164</u>

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements, Continued

Note 9 – Income Taxes, continued

The reasons for the differences between the statutory Federal income tax rate and the effective tax rate are summarized as follows (dollars in thousands):

	Years Ended December 31,					
	2012		2011		2010	
	Amount	%	Amount	%	Amount	%
Income taxes at statutory rate	\$17,353	35.0	5,785	35.0	3,005	35.0
Increase (decrease) in income taxes resulting from :						
State income taxes, net of federal tax benefits	1,799	3.6	599	3.6	313	3.6
Stock-based compensation	—	0.0	7	0.0	13	0.2
Other	271	0.6	50	0.7	(167)	(1.9)
Income taxes	\$19,423	39.2	6,441	39.3	3,164	36.9

The Company has no uncertain tax positions or unrecognized tax benefits that, if recognized, would impact the effective income tax rate. The tax years ending December 31, 2011, 2010, and 2009 remain subject to examination by our major taxing jurisdictions. The Company elected to classify, if any, interest and penalties arising from uncertain tax positions as income tax expense as permitted by current accounting standards.

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

Significant components of our net deferred income tax asset are as follows (in thousands):

	December 31,	
	2012	2011
Deferred tax assets:		
Unearned premiums	\$ 9,149	6,768
Losses and loss adjustment expenses	1,116	756
Organizational costs	106	118
Stock-based compensation	394	252
Accrued expenses	40	466
Deferred expenses	72	—
Total deferred tax assets	10,877	8,360
Deferred tax liabilities:		
Property and equipment	(1,519)	(943)
Deferred policy acquisition costs	(4,027)	(4,870)

Prepaid expenses	(225)	—
Unearned brokerage income	(105)	—
Other	(136)	(48)
Total deferred tax liabilities	(7,029)	(5,992)
Net deferred tax assets	\$ 3,848	2,368

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements, Continued

Note 9 – Income Taxes, continued

A valuation allowance is established if, based upon the relevant facts and circumstances, management believes any portion of the tax assets will not be realized. Although realization of deferred income tax assets is not certain, management believes it is more likely than not that deferred tax assets will be realized. As a result, the Company did not have a valuation allowance established as of December 31, 2012 or 2011.

Note 10 – Earnings Per Share

U.S. GAAP requires the Company to use the two-class method in computing basic earnings per share since holders of the Company's restricted stock have the right to share in dividends, if declared, equally with common stockholders. These participating securities effect the computation of both basic and diluted earnings per share during periods of net income.

share because the exercise price of \$9.10 exceeded the average market price of the Company's common stock. See Note 11 – "Stockholders' Equity" for a summary of warrant activity over the last three years. On September 26, 2012, the Company's Board of Directors fixed October 27, 2012 as the cancellation date for the IPO warrants. As such, the record holders of the IPO warrants had no further rights under the warrants on and after October 27, 2012. There were no preferred shares outstanding in 2010.

Note 11 – Stockholders' Equity

Common Stock

On April 19, 2012, the Company entered into an underwriting agreement (the "Underwriting Agreement") pursuant to which the Company agreed to sell 1,600,000 shares of the Company's common stock, no par value per share (the "Common Stock"), for \$11.75 per share, less a 6.0% underwriting commission. Under the terms of the Underwriting Agreement, the Company granted the underwriter an option to purchase up to an additional 240,000 shares of Common Stock at the public offering price, less a 6.0% underwriting commission, within 45 days from the date of the Underwriting Agreement to cover over-allotments, if any. The offering was made pursuant to the Company's effective registration statement on Form S-3, as amended (Registration Statement No. 333-180322), and the Prospectus Supplement dated April 19, 2012. On April 23, 2012, the underwriter elected to fully exercise its overallotment option. The closing of the sale of an aggregate of 1,840,000 shares of Common Stock occurred on April 25, 2012. The offering resulted in aggregate gross proceeds to the Company of approximately \$21.6 million and net proceeds of approximately \$20.1 million after underwriting commissions and offering expenses.

Effective March 18, 2009, the Company's Board of Directors authorized a plan to repurchase up to \$3.0 million (inclusive of commissions) of the Company's common shares. The repurchase plan allowed the Company to repurchase shares from time to time through March 19, 2010. This repurchase plan was supplemented in December 2009 upon approval by the Board of Directors to extend the repurchase authority by an additional \$3.0 million and continue until the repurchase plan is terminated by the Company or the maximum number of dollars has been expended. During the year ended December 31, 2010, the Company repurchased and retired a total of 311,239 shares at an average price of \$7.00 per share and a total cost, inclusive of fees and commissions, of \$2,196,392, or \$7.06 per share. During the year ended December 31, 2011, the Company repurchased and retired a total of 83,594 shares at an average price of \$8.23 per share and a total cost, inclusive of fees and commissions, of \$693,000, or \$8.29 per share.

As of March 28, 2011, the maximum amount designated for repurchases under this plan was expended and the share repurchase program was terminated.

Warrants outstanding at December 31, 2012	—	—

* In connection with the HomeWise assumption transaction in November 2011, the Company issued 1,000,000 warrants, which were exercisable to purchase 500,000 shares of the Company’s common stock at a per share exercise price of \$9.10.

The warrants issued prior to 2011 could be exercised at an exercise price equal to \$9.10 per share on or before July 30, 2013. At any time after January 30, 2009 and before the expiration of the warrants, the Company at its option could cancel the warrants in whole or in part, provided that the closing price per share of the Company’s common stock had exceeded \$11.38 for at least ten trading days within any period of twenty consecutive trading days, including the last trading day of the period. The placement agents also had the option to effect a cashless exercise in which the warrants would be exchanged for the number of shares which is equal to the intrinsic value of the warrant divided by the current value of the underlying shares. On September 26, 2012, the Company announced its Board of Directors had fixed October 27, 2012 as the cancellation date for the IPO warrants. As such, the record holders of the IPO warrants have no further rights under the warrants on and after October 27, 2012.

During 2012, 10,546 shares of common stock were issued upon the cashless exercise of 66,667 placement agent warrants in February. As of December 31, 2012, there are no placement agent warrants outstanding.

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued

Note 11 – Stockholders’ Equity, continued

The Company did not grant any warrants in 2012 and 2010. The fair value of the warrants issued in 2011 was estimated on the date of issuance using the following assumptions and the Black-Scholes option pricing model:

Expected dividend yield	5.0%
Expected volatility	52%
Risk-free interest rate	0.23%
Expected life (in years)	1.75
Per share grant date fair value of warrants issued	\$0.754

The \$754,000 aggregate value of the warrants was deferred and is being amortized over the expected policy term of the policies assumed in the transaction. The warrants, the issuance of which is not registered or required to be registered under the Securities Act of 1933, were exercisable for a term beginning on November 1, 2011 and ending on July 31, 2013 unless cancelled earlier at the Company’s option under the terms specified by the warrant agreement. Effective December 31, 2012, 500,000 shares of common stock were issued upon the exercise of 1,000,000 warrants. As of December 31, 2012, there were no warrants outstanding.

The aggregate intrinsic value of warrants exercised during the year ended December 31, 2012 was \$15.1 million.

Preferred Stock

In March 2011, the Company designated 1,500,000 shares of the Company’s preferred stock as Series A cumulative convertible preferred stock (“Series A Preferred”).

On March 25, 2011, the Company closed its preferred stock offering under which a total of 1,247,700 shares of its Series A Preferred were sold for gross proceeds of approximately \$12.5 million and net proceeds after offering costs of approximately \$11.3 million. Dividends on the Series A Preferred are cumulative from the date of original issue and accrue on the last day of each month, at an annual rate of 7.0% of the \$10 liquidation preference per share, equivalent to a fixed annual amount of \$0.70 per share. Accrued but unpaid dividends accumulate and earn additional dividends at 7.0%, compounded monthly.

Shareholders of Series A Preferred may convert all or any portion of their shares, at their option, at any time, into shares of the Company’s common stock at an initial conversion rate of one share of common stock for each share of Series A Preferred, which is equivalent to an initial conversion price of \$10 per share; provided, however, that the Company may terminate this conversion right on or after March 31, 2014, if for at least twenty trading days within any period of thirty consecutive trading days, the market price of the Company’s common stock exceeds the conversion price of the Series A Preferred by more than 20% and the Company’s common stock is then traded on the New York Stock Exchange, the NASDAQ Global Select Market, the NASDAQ Global Market, the NASDAQ Capital Market, or the NYSE Amex. Under certain circumstances, the Company will be required to adjust the conversion rate. The initial conversion price of \$10 per share is subject to proportionate adjustment in the event of stock splits, reverse stock splits, stock dividends, or similar changes with respect to the Company’s common stock.

During the year ended December 31, 2012, holders of 1,006,518 shares of Series A Preferred converted their Series A Preferred shares to 1,006,518 shares of common stock. There were no preferred stock conversions during the year ended December 31, 2011. As of December 31, 2012, 241,182 shares of Series A Preferred remain outstanding.

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements, Continued

Note 11 – Stockholders' Equity, continued

Shareholders of record of the Company's Series A Preferred at the close of business on a date for determining shareholders entitled to dividends will be entitled to receive the dividends payable on their Series A Preferred shares on the corresponding dividend payment date notwithstanding the conversion of such Series A Preferred shares before the dividend payment date. The Series A Preferred terms include a provision requiring such shareholders to pay an amount equal to the amount of the dividend payable. That requirement has been permanently waived by the Company.

Holders of the Series A Preferred shares generally have no voting rights, except under limited circumstances, and holders are entitled to receive cumulative preferential dividends when and as declared by the Company's Board of Directors.

In addition, the Company is authorized to issue up to an additional 18,500,000 shares of preferred stock, no par value. The authorized but unissued and undesignated preferred stock may be issued in one or more series and the shares of each series shall have such rights as determined by the Company's Board of Directors subject to the rights of the holders of the Series A Preferred.

On December 11, 2012, the Company's Board of Directors declared a cash dividend on its Series A Preferred shares in the amount of \$0.05833 per share for each of the months of December 2012, January 2013, and February 2013. The December 2012 dividend was paid on January 28, 2013 to shareholders of record at the close of business on January 2, 2013. The January 2013 dividend was paid on February 27, 2013 to shareholders of record at the close of business on February 1, 2013. The February 2013 dividend is payable on March 27, 2013 to shareholders of record at the close of business on March 1, 2013.

Stock Option and Incentive Plan

The Company accounts for stock-based compensation under the fair value recognition provisions of U.S. GAAP.

The Company's 2007 Stock Option and Incentive Plan ("2007 Plan") provided for granting of stock-based compensation to employees, directors, consultants, and advisors of the Company. Under the 2007 Plan, an aggregate of 6,000,000 shares of the Company's common stock could be granted, including through the grant of stock options and restricted stock. On April 20, 2012, the Company's Board of Directors adopted, subject to shareholder approval, the 2012 Omnibus Incentive Plan (the "2012 Plan"). The 2012 Plan was approved by the Company's shareholders effective as of May 24, 2012, at which time the 2007 Plan was terminated and the remaining 4,604,800 shares reserved for future issuance under the 2007 Plan were cancelled. The aggregate number of shares of the Company's common stock reserved and available for issuance pursuant to awards granted under the 2012 Plan is 5,000,000 of which only 4,000,000 shares may be issued upon the exercise of incentive stock options. At December 31, 2012, 46,320 shares have been granted under the 2012 Plan and 4,953,680 shares are available for grant under the 2012 Plan.

Note 12 – Stock-Based Compensation

Stock Options

Outstanding stock options granted under the 2007 Plan vest over periods ranging from immediately vested to five years and are exercisable over the contractual term of ten years.

Note 12 – Stock-Based Compensation, continued

A summary of the activity in the Company's 2007 Plan for the years ended December 31, 2012, 2011 and 2010 is as follows (dollars in thousands, except per share amounts):

	<u>Number of Options</u>	<u>Weighted Average Exercise Price</u>	<u>Weighted Average Remaining Contractual Term</u>	<u>Aggregate Intrinsic Value</u>
Outstanding at December 31, 2009	1,130,000	\$2.66		
Exercised	<u>(260,000)</u>	\$2.50		
Outstanding at December 31, 2010	870,000	\$2.71	6.5 years	\$4,675
Issued	30,000	\$6.30		
Forfeited	(24,800)	\$2.50		
Exercised	<u>(255,200)</u>	\$2.50		
Outstanding at December 31, 2011	620,000	\$2.97	5.7 years	\$3,122
Exercised	<u>(340,000)</u>	\$3.03		
Outstanding at December 31, 2012	<u>280,000</u>	\$2.91	4.9 years	\$5,007
Exercisable at December 31, 2012	<u>260,000</u>	\$2.65	4.6 years	\$4,717

The following table summarizes information about options granted, exercised, and the fair value of vested options for the years ended December 31, 2012, 2011 and 2010:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
Options granted	—	—	30,000
Weighted-average grant-date fair value	n/a	n/a	\$ 1.70
Options exercised	340,000	255,200	260,000
Total intrinsic value of exercised options	\$3,648,000	\$1,184,000	\$1,097,000
Tax benefits realized	\$1,161,000	\$ 265,000	\$ 301,000
Total fair value of vested options	\$ 22,000	\$ 76,000	\$ 196,000

During the year ended December 31, 2012, a total of 340,000 options were exercised of which 227,003 options were net settled by surrender of 72,592 shares. During the year ended December 31, 2011, a total of 255,200 options were exercised, which includes 30,000 options exercised and net settled by surrender of 9,317 shares. Compensation expense recognized for the years ended December 31, 2012, 2011 and 2010 totaled approximately \$68,000, \$27,000 and \$87,000, respectively. At December 31, 2012, there was approximately \$25,000 of unrecognized compensation expense related to nonvested stock options granted under the plan. The Company expects to recognize the remaining compensation expense over a weighted-average period of 16 months. Deferred tax benefits related to stock options for the years ended December 31, 2012, 2011 and 2010 were immaterial.

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued

Note 12 – Stock-Based Compensation, continued

No options were granted during the years ended December 31, 2012 and 2010. In 2011, 30,000 options were granted on August 26, 2011, with fair value estimated on the date of grant using the following assumptions and the Black-Scholes option pricing model:

Expected dividend yield	6.3%
Expected volatility	53.3%
Risk-free interest rate	0.97%
Expected life (in years)	5.00

Restricted Stock Awards

During 2012, the Company granted restricted stock awards to certain executive officers and employees in connection with their service to the Company. The terms of the Company’s restricted stock grants include both service and market-based conditions. The fair value of the awards with market-based conditions is determined using a Monte Carlo simulation method which calculates many potential outcomes for an award and then establishes fair value based on the most likely outcome. The determination of fair value with respect to the awards with only service-based conditions is based on the value of the Company’s stock on the grant date.

Information with respect to nonvested restricted stock awards, which were granted in April and May 2012 under the 2007 Plan and in December 2012 under the 2012 Plan, is as follows:

	<u>Number of Restricted Stock Awards</u>	<u>Weighted Average Grant Date Fair Value</u>
Nonvested at December 31, 2011	—	—
Granted	<u>246,320</u>	\$14.54
Nonvested at December 31, 2012	<u>246,320</u>	\$14.54

The Company recognized compensation expense of \$776,000 in the year ended December 31, 2012. At December 31, 2012, there was approximately \$2.8 million of total unrecognized compensation expense related to nonvested restricted stock arrangements granted under the Company’s 2007 Plan and 2012 Plan. For the year ended December 31, 2012, the Company recognized deferred tax benefits of approximately \$299,000 related to restricted stock awards.

The Company expects to recognize the remaining compensation expense over a weighted-average period of 30 months. No restricted stock was granted during the years ended December 31, 2011 and 2010. The following presents assumptions used in a Monte Carlo simulation model to determine the fair value of the awards with market-based conditions:

Expected dividends per share	\$0.80
Expected volatility	36.7 – 50.0%
Risk-free interest rate	0.1 – 1.2%
Estimated cost of capital	11.9 – 12.1%
Expected life (in years)	6.00

Note 13 – Commitments and Contingencies

Lease Commitments

In November 2012, the Company entered into an agreement to lease a 15,000 square feet of office space in Noida, India. The lease has an initial term of nine years commencing January 15, 2013 with monthly rental payments of approximately \$10,200 plus applicable service tax for the first year. Thereafter the monthly rental payment will increase by five percent every year. The Company is entitled to terminate the lease 36 months after the commencement date by providing 3 months' written notice to the landlord.

The Company leased office space in Noida, India effective with the Company's acquisition of Unthink in November 2011. This non-cancelable lease, which was assumed by the Company at acquisition, required the Company to pay base rent of approximately \$3,200 per month throughout the lease term which will expire on June 2, 2013.

Minimum future rental payments under operating leases after December 31, 2012 are as follows (in thousands):

<u>Year</u>	<u>Amount</u>
2013	\$ 139
2014	129
2015	136
2016	142
2017	150
Thereafter	<u>676</u>
Total minimum future payments	<u>\$1,372</u>

Rental expense under all facility leases was \$527,000, \$239,000 and \$191,000, respectively, during the years ended December 31, 2012, 2011 and 2010. Included in each year was expense related to the Company's former corporate headquarters.

Service Agreement

In connection with the lease for new office space in India as described in the lease commitments above, the Company signed a long-term contract with the landlord to receive maintenance and facility services. The agreement has the same initial term of nine years with monthly payments of approximately \$1,800 plus applicable service tax for the first year. Thereafter the monthly payment will increase by five percent every year. The Company is also entitled to terminate the agreement 36 months after the commencement date by providing 3 months' written notice to the landlord.

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued

Note 13 – Commitments and Contingencies, continued

Minimum future payments under the service agreement after December 31, 2012 are as follows (in thousands):

<u>Year</u>	<u>Amount</u>
2013	\$ 22
2014	23
2015	25
2016	25
2017	27
Thereafter	<u>122</u>
Total minimum future payments	<u>\$244</u>

Rental Income

The Company owns real estate which consists of 3.5 acres of land, a building with gross area of 122,000 square feet, and a four-level parking garage. This facility is used by the Company and its subsidiaries. In addition, the Company leases space to non-affiliates.

Expected annual rental income due under non-cancellable operating leases for all properties and other investments owned at December 31, 2012 are as follows (in thousands):

<u>Year</u>	<u>Amount</u>
2013	\$1,102
2014	815
2015	591
2016	347
2017	<u>27</u>
Total	<u>\$2,882</u>

Regulatory Assessments

a) *Regular Insurance Assessments and Surcharges*

As a direct premium writer in the state of Florida, the Company is subject to mandatory assessments by Citizens and mandatory surcharges by the Florida Hurricane Catastrophe Fund (FHCF). These assessments and surcharges are paid based on a percentage of the Company's direct written premium by line of business. For the years ended December 31, 2012, 2011 and 2010, HCPCI paid assessments to FHCF amounting to \$2,517,000, \$1,592,000 and \$987,000, respectively. Additionally, HCPCI paid assessments to Citizens of \$1,936,000, \$1,604,000 and \$1,382,000, respectively, for the years ended December 31, 2012, 2011 and 2010. These assessments are recorded as a surcharge in premium billings to insureds. As of December 31, 2012, 2011 and 2010, the surcharge rate in effect for FHCF was 1.3%, 1.3% and 1.0%, respectively. As of December 31, 2012, 2011 and 2010, the surcharge rate in effect for Citizens was 1.0%, 1.0% and 1.4%, respectively.

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements, Continued

Note 13 – Commitments and Contingencies, continued

b) Guaranty Fund

The Florida Insurance Guaranty Association may assess the Company to provide for the payment of covered claims of insolvent insurance entities. The assessments are generally based on a percentage of premiums written as of the end of the prior year in which the assessment is levied. Although the Company is permitted by Florida statutes to recover the entire amount of assessments from existing and future policyholders through policy surcharges, liabilities are recognized when the assessments are probable to be imposed on the premiums on which they are expected to be based and the amounts can be reasonably estimated. During 2012, the Company paid \$1.1 million of guaranty fund assessments, \$482,000 of which was recognized as an asset recoverable from policyholders. The balance of \$657,000 was charged to expense in 2012. However, the entire amount of \$1.1 million is expected to be recovered from policyholders over a twelve-month period beginning February 2013. The amount recovered in excess of \$482,000 will be credited to expense. The Company has filed with the Florida Office of Insurance Regulation to enable HCPCI to recover the full amount of this assessment from its policyholders. At December 31, 2012, the Company did not provide for a liability related to guaranty fund assessments.

Environmental Matters

In connection with the Company's April 20, 2011 acquisition of the real estate located in Pinellas County, Florida (see Note 5 – "Business Acquisitions"), the Company assumed the liability to complete a site assessment and remediation of environmental contamination that resulted from a petroleum release at the marina site in late 2009. The Company and its environmental consultants have assumed the remedial action work plan developed by prior management and its environmental consultant, which consists of completing the site assessment, performing soil excavation, and installing wells for collection of groundwater and soil samples throughout the monitoring phase of the project. At acquisition, the Company recorded a liability of \$150,000 with respect to the planned remedial action. Such liability was determined based on reasonably estimable costs of completing the actions defined in the existing ongoing work plan. As of December 31, 2012, a total of \$53,000 has been expended with respect to the site assessment and the remaining \$97,000 accrued at acquisition is included in other liabilities in the accompanying consolidated balance sheets. Although the Company has accrued all reasonably estimable costs of completing the actions defined in the current ongoing work plan, it is possible that additional testing and additional environmental monitoring and remediation will be required in the near future as part of the Company's ongoing discussions with the Florida Department of Health, the agency contracted by the Florida Department of Environmental Protection to administer cases of petroleum contamination in Pinellas County, in which case additional expenses could significantly exceed the current estimated liability. However, based on information known at December 31, 2012, the Company does not expect that such additional expenses would have a material adverse effect on the liquidity or financial condition of the Company.

Litigation

The Company is party to claims and legal actions arising routinely in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the consolidated financial position or liquidity.

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements, Continued

Note 15 – Regulatory Requirements and Restrictions

The Florida Insurance Code (the “Code”) requires HCPCI to maintain capital and surplus equal to the greater of 10% of its liabilities or a statutory minimum as defined in the Code. At December 31, 2012, HCPCI is required to maintain a minimum capital and surplus of \$19.7 million. At December 31, 2012, 2011 and 2010, HCPCI’s statutory capital and surplus was \$69.8 million, \$46.5 million and \$31.1 million, respectively. HCPCI had a statutory net income of \$13.2 for the year ended December 31, 2012 and a statutory net loss of \$4.3 million and \$2.3 million for the years ended December 31, 2011 and 2010, respectively. Statutory surplus differs from stockholders’ equity reported in accordance with U.S. GAAP primarily because policy acquisition costs are expensed when incurred. In addition, the recognition of deferred tax assets is based on different recoverability assumptions.

Since inception, HCPCI has maintained a cash deposit with the Insurance Commissioner of the state of Florida, in the amount of \$300,000, to meet regulatory requirements.

Under Florida law, a domestic insurer may not pay any dividend or distribute cash or other property to its stockholders except out of that part of its available and accumulated capital and surplus funds which is derived from realized net operating profits on its business and net realized capital gains. A Florida domestic insurer may not make dividend payments or distributions to stockholders without prior approval of the Florida Office of Insurance Regulation if the dividend or distribution would exceed the larger of (1) the lesser of (a) 10.0% of its capital surplus or (b) net income, not including realized capital gains, plus a two year carry forward, (2) 10.0% of capital surplus with dividends payable constrained to unassigned funds minus 25% of unrealized capital gains or (3) the lesser of (a) 10.0% of capital surplus or (b) net investment income plus a three year carry forward with dividends payable constrained to unassigned funds minus 25% of unrealized capital gains. At December 31, 2012, 2011 and 2010, no dividends are available to be paid by HCPCI.

The Bermuda Monetary Authority requires Claddaugh to maintain minimum capital and surplus of \$2.0 million. At December 31, 2012, 2011 and 2010, Claddaugh’s statutory capital and surplus was \$10.3 million, \$8.8 million and \$4.5 million, respectively. Claddaugh’s statutory net profit was \$4.8 million, \$4.3 million and \$4.9 million, respectively, for the years ended December 31, 2012, 2011 and 2010. During the years ended December 31, 2012, 2011 and 2010, Claddaugh paid its parent, HCI, cash dividends of \$6.0 million, \$0 million and \$4.8 million, respectively.

Note 16 – Related Party Transactions

On June 1, 2012, Claddaugh Casualty Insurance Company, Ltd. (“Claddaugh”), the Company’s Bermuda-based captive reinsurer, entered into a reinsurance treaty with Moksha Re SPC Ltd. and multiple capital partners (“Moksha”) whereby a portion of the business assumed from the Company’s insurance subsidiary, Homeowners Choice Property & Casualty Insurance Company, Inc. (“HCPCI”), is ceded by Claddaugh to Moksha. With respect to the 2012-2013 treaty year, which covers the period from June 1, 2012 through May 31, 2013, Moksha assumed \$13.8 million of the total covered exposure for approximately \$4.0 million in premiums, a rate which management believes to be competitive with market rates available to Claddaugh. The \$4.0 million premium was fully paid by Claddaugh in June 2012. Moksha capital partners deposited an aggregate of \$9.8 million into a trust account along with the \$4.0 million premium paid by Claddaugh to fully collateralize Moksha’s exposure. Trust assets may be withdrawn by HCPCI, the trust beneficiary, in the event amounts are due under the 2012-2013 Moksha reinsurance agreement. Among the Moksha capital partner participants, the Company’s chief executive officer and the Company’s vice president of investor relations contributed \$700,000 and \$200,000, respectively.

(continued)

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements, Continued

Note 16 – Related Party Transactions, continued

In addition, members of the chief executive officer's immediate family contributed \$942,500. The remaining capital partner participants, who are multiple parties unrelated to the Company, contributed the balance of \$7,960,000.

One of the Company's directors is a partner at a law firm that manages certain of the Company's corporate legal matters. Fees incurred with respect to this law firm for the years ended December 31, 2012, 2011 and 2010 were approximately \$335,000, \$232,000 and \$266,000, respectively.

During 2010, 2011, and 2012, the Company leased office space under an operating lease agreement with one director. The lease required annual base rental payments of approximately \$150,000. The lease was terminated in December 2012 and the total payments during 2012 were \$179,000. Lease payments on this property for each of the years ended December 31, 2011 and 2010 totaled \$160,000.

Effective April 4, 2011, the Company repurchased and retired a total of 80,000 shares of the Company's common stock at a price of \$8.00 per share for a total cost of \$640,000. Such shares were repurchased under a stock purchase agreement with one of the Company's directors at a price below the \$8.20 market value of the Company's common stock on the date of the transaction. Such repurchases were not part of a publicly announced plan or program.

Effective June 27, 2011, the Company repurchased and retired a total of 85,200 shares of the Company's common stock at a price of \$6.50 per share for a total cost of \$553,800. Such shares were repurchased under a stock purchase agreement with the Company's former Chief Executive Officer at a price below the \$6.96 market value of the Company's common stock on the date of the transaction. Such repurchases were not part of a publicly announced plan or program.

One of the Company's directors received a consulting fee and software license fees for development and use of the Company's premium administration application software. Under this arrangement, the Company incurred fees of \$181,000 and \$359,000 for the years ended December 31, 2011 and 2010, respectively. Effective June 30, 2011, all rights to the software license were assigned to the Company in exchange for a one-time payment of \$50,000. Such payment was made to the Company's director who developed and licensed the software to the Company. The related software license and consulting agreements were terminated coincident with this exchange.

HOMEOWNERS CHOICE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements, Continued

Note 18 – Subsequent Events

On February 28, 2013, the Company purchased real estate in Ocala, Florida for a total purchase price of \$2.0 million. The real estate consists of 1.6 acres of land and a vacant office building with gross area of approximately 16,000 square feet. The facility will be used by the Company and its subsidiaries primarily in the event a catastrophic event impacts the Company's home office and support operations.

On January 22, 2013, the Company's Board of Directors declared a quarterly dividend of \$0.225 per common share. The dividends are scheduled for payment on March 15, 2013 to stockholders of record on February 15, 2013.

On January 17, 2013, the Company completed the sale of unsecured senior notes in a public offering for an aggregate principal amount of \$35 million. In addition, effective January 25, 2013, the Company received an aggregate principal amount of \$5.3 million pursuant to the underwriters' exercise of the over-allotment option. The offering was made pursuant to the Company's effective registration statement on Form S-3, as amended (Registration Statement No. 333-185228) and the Prospectus Supplement dated January 10, 2013. The combined net proceeds after underwriting and issuance costs approximate \$38.7 million. The notes, due in 2020, bear interest at a fixed annual rate of 8% which is payable quarterly. The notes may be redeemed, in whole or in part, at any time on and after January 30, 2016 and rank on parity with all of the Company's other existing and future unsecured senior debts.

ITEM 9 – Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

ITEM 9A – Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, under the supervision and with the participation of our principal executive officer and principal financial officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of the end of the period covered by this Annual Report (December 31, 2012). Our disclosure controls and procedures are intended to ensure that the information we are required to disclose in the reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms and (ii) accumulated and communicated to our management, including the principal executive officer and principal financial officer to allow timely decisions regarding required disclosures.

Based on that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered by this Annual Report, our disclosure controls and procedures were effective.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events.

Management’s Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over our financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act). Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Our management, with the participation of our principal executive officer and principal financial officer, conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of December 31, 2012, our internal control over financial reporting was effective.

Hacker, Johnson & Smith PA, an independent registered public accounting firm, has audited the consolidated financial statements included in this Annual Report on Form 10-K and, as part of their audit, has issued an attestation report, included herein, on our internal control over financial reporting.

Changes in Internal Control Over Financial Reporting

During our most recent fiscal quarter, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

ITEM 9B – *Other Information*

None.

PART III

ITEM 10 – *Directors, Executive Officers and Corporate Governance*

Code of Ethics

We have adopted a code of ethics applicable to all of our employees and directors, including our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer). We have posted the text of our code of ethics to our Internet web site: www.hcpci.com. Select “Investors” from the left and then select “Corporate Governance” and then “Code of Conduct.” We intend to disclose any change to or waiver from our code of ethics by posting such change or waiver to our Internet web site within the same section as described above.

The other information required under this item is incorporated by reference from our definitive proxy statement relating to our annual meeting of shareholders, which will be filed with the Securities and Exchange Commission within 120 days after the end of our fiscal year ended December 31, 2012.

ITEM 11 – *Executive Compensation*

The information required under this item is incorporated by reference from our definitive proxy statement relating to our annual meeting of shareholders, which will be filed with the Securities and Exchange Commission within 120 days after the end of our fiscal year ended December 31, 2012.

ITEM 12 – *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters*

The information required under this item is incorporated by reference from our definitive proxy statement relating to our annual meeting of shareholders, which will be filed with the Securities and Exchange Commission within 120 days after the end of our fiscal year ended December 31, 2012.

Securities authorized for issuance under equity compensation plans are summarized under Part II – Item 5 of this Form 10-K.

ITEM 13 – *Certain Relationships and Related Transactions, and Director Independence*

The information required under this item is incorporated by reference from our definitive proxy statement relating to our annual meeting of shareholders, which will be filed with the Securities and Exchange Commission within 120 days after the end of our fiscal year ended December 31, 2012.

ITEM 14 – *Principal Accounting Fees and Services*

The following table sets forth the aggregate fees for services related to the years ended December 31, 2012 and 2011 provided by Hacker, Johnson & Smith PA, our principal accountant:

	<u>2012</u>	<u>2011</u>
Audit fees ^(a)	\$189,500	121,000
All other fees ^(b)	58,000	20,000
	<u>\$247,500</u>	<u>141,000</u>

(a) Audit Fees represent fees billed for professional services rendered for the audit of our annual financial statements, review of our quarterly financial statements included in our quarterly reports on Form 10-Q, and audit services provided in connection with other statutory and regulatory filings.

- (b) All Other Fees represent fees billed for services provided to us not otherwise included in the category above, which are primarily fees related to the review of our registration statements in connection with our senior note offering which was completed in January 2013, our follow-on common stock offering in 2012 and our preferred stock offering completed in 2011.

The other information required under this item is incorporated by reference from our definitive proxy statement relating to our annual meeting of shareholders, which will be filed with the Securities and Exchange Commission within 120 days after the end of our fiscal year ended December 31, 2012.

PART IV

ITEM 15 – Exhibits, Financial Statement Schedules

(a) Financial Statements, Financial Statement Schedules and Exhibits

(1) Consolidated Financial Statements: See Index to Consolidated Financial Statements in Part II, Item 8 of this Form 10-K.

(2) Financial Statement Schedules:
